*piano transcription – travelsbypiano [tbpt136]*

This image displays a piano transcription of a section from Boccherini's String Quartet in E major, Op. 9 No. 6. The score is organized into five systems, each consisting of two staves. The measures are numbered 26 through 98, with some systems containing multiple measures (e.g., measures 31-35 on the second system). The notation includes various musical symbols such as notes, rests, accidentals, and dynamic markings. A double bar line is present at the end of measure 96, indicating a section break. The transcription is attributed to travelsbypiano [tbpt136].

*L. Boccherini – String Quartet in E major Op.9 No.6 / G.176*  
*piano transcription – travelsbypiano [tbpt136]*

This image displays a piano transcription of measures 124 through 148 of L. Boccherini's String Quartet in E major, Op. 9 No. 6. The transcription is presented in five systems, each consisting of two staves. Above each system, a horizontal bar indicates the measure numbers. The notation includes various musical symbols such as notes, rests, slurs, and dynamic markings. The dynamics *rf* (rassordito forte), *p* (piano), and *pp* (pianissimo) are used to indicate changes in volume. The transcription captures the intricate textures and melodic lines of the original string quartet.

*piano transcription – travelsbypiano [tbpt136]*

The image displays a piano transcription of a section from Boccherini's String Quartet in E major, Op. 9 No. 6. The score is organized into three systems, each with two staves. The first system covers measures 149 to 153, the second system covers measures 154 to 158, and the third system covers measures 159 to 162. The notation includes various musical symbols such as notes, rests, and slurs. A dynamic marking of *p* (piano) is present in measure 151. The piece concludes with a double bar line at the end of measure 162.

*Allegretto con grazia* (♩ ~ 136)

This piano transcription of Boccherini's String Quartet in E major, Op.9 No.6, measures 1 through 24. The piece is in 4/4 time with a tempo of approximately 136 beats per minute. The key signature has two sharps (F# and C#). The transcription is written for piano, with a treble and bass staff. Measures 1-5 are marked 'cantabile'. Measures 6-10 show a change in texture with triplets and sixteenth notes. Measures 11-14 feature a more rhythmic section with eighth notes and sixteenth notes. Measures 15-19 are marked 'più cantabile' and include a triplet in measure 15. Measures 20-24 conclude the excerpt with a trill in measure 23 and a piano (p) dynamic marking in measure 24.

*L. Boccherini – String Quartet in E major Op.9 No.6 / G.176*  
*piano transcription – travelsbypiano [tbpt136]*

This piano transcription of Boccherini's String Quartet in E major, Op.9 No.6, measures 25 through 89. The score is written for piano and features a variety of musical textures and dynamics. Measures 25-29 show a steady eighth-note melody in the right hand with a simple harmonic accompaniment in the left. Measures 30-34 introduce triplets and trills, with a *pp* (pianissimo) dynamic marking. Measures 35-39 continue with trills and triplets, featuring a *rf* (rassonnato forte) dynamic in measure 36 and a *p* (piano) dynamic in measure 38. Measures 80-84 mark a *cantabile* section, characterized by a slower tempo and a *pp* dynamic. Measures 85-89 return to a more active texture with triplets and a *rf* dynamic. The transcription uses standard musical notation, including treble and bass staves, clefs, key signatures, and various musical symbols for dynamics, articulation, and ornamentation.

*piano transcription – travelsbypiano [tbpt136]*

This page contains a piano transcription of measures 21 through 86 of L. Boccherini's String Quartet in E major, Op. 9 No. 6. The transcription is written for piano and includes various musical notations such as dynamics, articulation, and phrasing.

**Measures 21-25:** The first system covers measures 21 to 25. Measure 21 starts with a forte (*f*) dynamic. Measure 23 includes the instruction *dolce, dim. ...*.

**Measures 26-30:** The second system covers measures 26 to 30. Measure 27 is marked *p* (piano). Measure 29 is marked *f* (forte).

**Measures 31-35:** The third system covers measures 31 to 35. Measure 31 is marked *p*. Measure 33 is marked *f*. Measure 35 includes the instruction *dolce, dim. ...*.

**Measures 37-40:** The fourth system covers measures 37 to 40. Measure 37 is marked *p*. Measure 38 includes the instruction *cresc. ...*. Measure 39 is marked *f*. Measure 40 is marked *f* and includes an 8-measure rest (*8*).

**Measures 81-86:** The fifth system covers measures 81 to 86. Measure 81 is marked *f* and includes an 8-measure rest (*8*). Measure 86 is marked *p*.

*L. Boccherini – String Quartet in E major Op.9 No.6 / G.176*  
*piano transcription – travelsbypiano [tbpt136]*

This piano transcription of Boccherini's String Quartet in E major, Op.9 No.6, measures 112-136, is presented in a two-staff format. The notation includes various musical symbols such as notes, rests, and dynamic markings. The key signature is one sharp (F#), and the time signature is 3/4. The transcription is divided into five systems, each containing two staves. Measure numbers 112 through 136 are indicated at the beginning of each system. Dynamic markings include *ff* (fortissimo), *p* (piano), *cresc. ...* (crescendo), *f* (forte), *dolce, dim. ...* (dolce, decrescendo), and *f* (forte). The transcription captures the intricate textures and dynamics of the original string quartet.

## How To Read This Score

This score was not produced in the “proper” way, that is with a music typeset program, so it won’t **look** as **good** as it could (should?) be. Still, it is **sufficient and correct**, meaning it carries all the necessary information to be read and played as any other, and has been quality-checked to the best of my efforts.

The following notes are a few tips for readers accustomed to beautiful typesetting, to help them cope with the quirks they are more likely to notice, and to make them realize that maybe a score like this is not as deviant as they think after all.

Now, on to the tips.

\*\*\*

### Staves

These are piano scores, so notes run as usual on two staves. Occasionally they may expand to three or even four staves if necessary. However, staves are not visually united by the customary **{** sign. There is only more white space to visually separate lines.

### Key signature

Accidentals (*b*, #) and clefs are noted with the usual symbols. However they will be noted only at the beginning of the first line without repeating them at the beginning of the following lines. Only when the clef or an accidental **changes**, it will be noted. It’s easier to understand if you think of a score that runs on one single line from start to finish, for which you would need a veeeeeeeeery long (and narrow) page to print out, that is instead clipped in many pieces – of about 5 bars each – and pasted on a customary A4-page.

### Bar reset

At every bar change, all accidental changes from the key signature are implicitly reset.  
# signs are only noted within the same bar and in the same stave.

### Weird accidentals

Sometimes (rarely I hope) you may find accidentals notated in a strange way, for example F# in a context of G minor written as Gb (G flat). These are program quirks that generally happen in minor mode sections. The note is not actually wrong (G flat and F sharp are the same note) but in that context you should generally write it in another way to be easier to read. I generally fix these when I produce scores but occasionally one or two may slip through my quality checks. As far as I know, there is one instance when this quirk actually produces a wrong note: in F minor context, natural E written as E sharp. If you happen to find it (I hope not) please remember that’s (supposed to be) just a natural E. For transcription scores you can of course clear up any doubt by comparing with a score of the original composition.

### Time signatures and metronome

They are noted in the usual way. Sometimes the signature is in “alla breve” to improve readability. I usually note metronome indications too, although occasionally in a fancy way. For example for a piece in 6/8 it is customary to note metronome indication with 3/8 as basis. Most of the time I use 1/8 as basis instead: to get your usual base just divide by three (e.g.  $1/8 = 180 \rightarrow 3/8 = 60$ ). Metronome times are not set in stone of course; to underline that, I generally don’t write “=” but “~”

## Tempo markings (Allegro, Andante and merry friends)

Noted in the usual way, however I'm a native Italian speaker so I may get creative sometimes... if everything fails just type the mystery word into any translator program online and you're set to go.

## Bar numbers

They are always marked. Traditionally if the first bar is almost empty, containing only a few notes as introduction to the second bar which holds the first true upbeat, it is not numbered as bar n. 1 and instead the second bar is considered to be bar 1. Not true here: bar 1 is the bar that carries the very first note, even if it contains only one note in the last interval. Personally I prefer this way of counting and I use it to count the official total number of bars in my pieces.

## Volume (p, f, etc.) and accents

Noted in the usual way, in bold italic. When you sometimes see "rf", it stands for "rinforzando" and means: play louder (than a moment before). Note that the "how much louder" part is left to the interpreter. Indications like "*crescendo*", "*diminuendo*", "*smorzando*" carry the customary meaning and are generally written like "*cresc.*", "*dim.*", "*smorz.*". Crescendo and Diminuendo are noted in place of their graphical counterparts (you know, those long open fork-like signs)

## Slurs (phrasing)

No slurs here, sorry. For transcription scores you can of course refer to the phrasing of the original works: I always try to carry on the spirit and message of the original compositions (these are transcriptions, not revolutions...). Sometimes I consciously change the *letter*, but not the *spirit*. I consider phrasing as part of the spirit, so you can assume it's the same as in the original.

## Legato and Staccato

Traditionally, slurs are used not only for phrasing but also to note *legato*; so when consecutive notes are not tied by a slur they can be assumed to be *staccato*. This is absolutely not true here and it's probably one of the biggest differences in notation here with traditional, pretty typesetting.

There are no slurs: neither phrasing nor legato ones. So what do we do?

It is still possible to distinguish a *legato* note from a *staccato* note.

How? The point is, forget for a moment how the notes are *written* and focus on how they are *played*:

- a *legato* note is played for its *whole* duration
- a *staccato* note is played for *half* its duration, followed by a *pause* for the other half

There we go.

Staccato notes are noted with half the value, followed by half the pause. For example a staccato 1/8 note will be displayed as a 1/16 note followed by a 1/16 pause. While visually upsetting at first, it is logically correct: when you are playing your notes in staccato you are actually playing them for only half the duration and pausing for the remaining half.

Legato notes are not noted in any special way: by default they are legato. An 1/8 note is to be played for 1/8 and that's it. But, if it's followed by an 1/8 pause, it means it's a staccato 1/4 note!

Imagine a 3/4 time bar filled with six consecutive 1/8 notes. No pauses in between? They are legato. If they were staccato, they would instead be written as 1/16 notes followed by a 1/16 pause each.

Imagine a passage with couples of 1/8 notes tied in couples by slurs: it means the first is legato, the second is staccato (elegant phrasing frequently found in classical music). How do we write it here? 1/8 note, 1/16 note, 1/16 pause.

Yes I know, it is visually awful at first, but after a while you get used to it: it's just another way of writing the same thing but it's correct and even closer to the reality of playing.

## Tails (note grouping)

The "tails" of the notes of duration 1/8 or shorter are usually tied together with one or more thick lines as the number of their tails. The program I use however sometimes groups the notes in a way that doesn't match the musical rhythm. For example in a 6/8 bar with 6 1/8 notes these should generally be grouped all together or 3 by 3. Unfortunately you will see them always grouped in 4+2, which is generally OK but only for a 3/4 rhythm. When this kind of quirk becomes particularly vexing I generally include a footnote to point it out. Sometimes the program does not tie notes at all, for example in tercets. This does not necessarily mean they have to be played staccato: see previous paragraph and refer to inline score notes for additional directions.

Bottom line: there is no deep meaning behind awkward groupings. Please try to focus on the notes instead of their tails.

## Pedals, fingering

Noted rarely, and when noted, always consider them “with a grain of salt”. It’s best if you rely on your own sensibility or ask your teachers for practical advice. Fingering in particular is written only as a curiosity.

## Right hand, Left hand

Generally the first stave is the right hand and the second stave the left hand (duh!) however keep in mind that the subdivision of notes between the two staves you’ll see is not necessarily the best or the most comfortable to play. I generally choose the one that is easier to **read**, not to play. Sometimes I even leave the messy subdivision I used when composing the piece directly on the score without playing it myself (in some preludes for instance): that’s what I call “composer’s score”. There, some work is definitely necessary to move notes from one stave to another in order to make the whole lot more easily readable and playable. The bottom line is: if you are uncomfortable with the hand distribution on the score, do not hesitate to find and play your own distribution of notes between the two hands.

Another point, just to be sure: as a general rule playing (volume, expression etc.) directions meant for both hands are written *between* the staves, those meant only for the first stave are written *above* it, those meant only for the second stave are written *under* it.

## Trills, appoggiatura, acciaccatura, mordents and other embellishments

More likely to appear in my transcriptions, they may or may not be written in standard notation, that is shorthanded with standard signs: sometimes they may be written out explicitly with all the notes involved, without any shorthand sign. Somewhat ugly but correct. For example an *acciaccatura* may be

written as  $\text{♩}$  or as a full sized 1/32 note, like this:

There may be a footnote describing trill resolutions, most of the time visually with a score snippet of the bars containing embellishments, rendered in “zoomed” time signature (see below)

## Zoomed (bloated) time signature

“If the same music were written in a bar with this time signature, it would read like this.” This awkward device is used when the midi program on the real time signature shows the notes too close to be readable. You must convert back the notes to the real signature to play them at the correct speed. Example: a trill in 1/16 tercets within a 4/4 bar, is shown “zoomed” in a 6/4 bar so the 1/16 tercets become regular 1/16 and can be properly displayed.

## Repeats

(in transcription scores) When comparing the original scores with my transcriptions, you might notice that sometimes passages typeset with repeats in the original do not have repeat signs in the transcribed version: the bars are explicitly shown twice. I’m not talking about *large* repeats as the two halves of a sonata movement but *shorter* repeats as those found in minuetto / trio or other suite/dance based movements, variation sets and so on. This may happen for two reasons:

- (most of the time): in my transcribed version, the repeat section contains some kind of variation: the second time is different from the first so it becomes *obbligato*. There may be a footnote expressing my preference if you choose to skip the repeat anyway (for larger sections).
- (sometimes): repeated section is too short; since adding repeat signs in my coarse typesetting translates to bitmap editing, if it becomes less efficient than unfolding the repeat I just repeat the bars explicitly

## Finally...

Try reading the score while listening to the example (digital or human) performances you can find on my YouTube channel or on IMSLP.org. This should clear up any doubt.

For transcription scores, it is of course useful and recommended to familiarize yourself with the original work and its score. There you can find phrasing slurs and other notation details that may be missing in my rough scores; you can also have fun comparing the transcription with the original and spot where my version differs from the original and how. As a general rule when a notation detail is missing in my version (phrasing slurs for example) you can of course consider the one in the original score, however when notation details are slightly different (for example volume directions) then they are not to be considered mistakes but the result of conscious choices and integral part of the transcription.

## Questions and Answers

**Q. So what does “DOUJIN EDITION” mean, anyway?**

A. “Doujin” is a Japanese abbreviation for “self-published”, literally “the same person”. The O’s are replaced with zeroes to imply this is also a “zero edition” or “edition zero”. So, self-made digital publishing, edition zero.

**Q. This is all fine and dandy (yeah, right...) but are you ever going to release a better looking score?**

A. Most likely... NOT.

**Q. Why not?**

A. I don’t have the time. Consider that producing these flimsy “zero edition” scores already cost me several hours of sleep / free time and many a fit of rage and/or frustration.

**Q. Free time? Isn’t this your main occupation?**

A. Not (*shobon...*)

**Q. What about getting your scores professionally edited, proofed, printed and bound by a publishing company?**

A. That was my closet dream as a young boy... Well, if anything these “zero edition” scores should provide all the necessary data to produce a beautiful, high quality score. Core content is there.

**Q. I want to produce a proper typeset edition of your scores.**

A. Yes, you can!... but if you want to release your typeset edition, since it counts as a derivative work, you have to follow the same Creative Commons licensing terms I chose to publish my “source” edition (see front page). Thank you.

**Q. I want to play your works in public / record and publish a performance!**

A. Yes, you can!... provided you abide by the Creative Commons licensing terms specified in the front page. That’s mandatory. Aside from that, I’d be delighted to know when and where my works are played and even more to hear them played by someone else. So, this is not required, but if you can just send me a note with a link to an mp3 / YouTube video of your performance, you’d definitely make my day.

**Q. Why did you choose “by-nc-sa” out of all the Creative Commons licenses available?**

A. For a mix of practical and philosophical considerations. “Attribution” (by): well, that’s a given. “Non-Commercial” (nc): I’m not making any money out of this... so neither should you! “Share-Alike” (sa) is to explicitly allow derivative works, bound to the original license terms. Personally, I believe that Music, as all the Arts in general, is Alive. Musical works are living beings. As such, they should be allowed to live, survive, evolve into further life. Forbidding derivatives would stifle that. For instance, it would forbid writing a set of variations on one of my themes, writing arrangements/transcriptions for different instruments... I don’t want that to happen. Besides, I have written myself a lot of piano transcriptions and a few variation sets of classical works, it just wouldn’t be fair if I did not allow the same for my own original works. “Share-Alike” (sa) also means that if you want to release your derivative works you must do so under the same licensing terms of the original work, and again this is to make sure that the Music can live, survive, and evolve.

**Q. I have a request / inquiry.**

A. Drop me a line (see links/contact page below)

## **Words of Thanks**

Thank you for your interest in my modest works.

Thank you for reaching to the scores.

If you like this music, please consider archiving these scores  
and/or sharing them with family and friends.

Thank you for your Support!..

... and Thank You  
to the Great Masters of the Past...
