THE CORRECT POSITION OF THE HANDS AND FEET AT THE ORGAN

FIGURE 1

POSITION of the left foot in using the toe—(Λ)

FIGURE 2

POSITION of the left foot in using the heel—(O), just before playing a black key.

FIGURE 3

POSITION of the feet in act of passing left foot to the rear of right. Note raised position of right heel, which permits complete freedom of motion.

FIGURE 4

MANUAL TOUCH. The left hand is demonstrating the correct position and full touch which is to be used. The right hand is showing the weak and flabby touch in which the keys are only partly depressed. This is to be carefully avoided

FIGURE 5

THE act of using the piston with the thumb, while the fingers remain in playing position over the keys.

FIGURE 6

THE piston of the upper manual being pressed (preparatory to transferring the hand to that keyboard) while a chord is being held upon the lower manual.

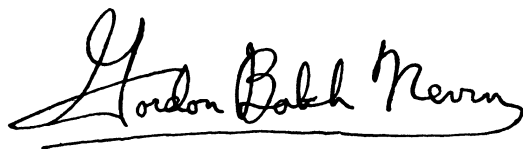

PREFACE

IN the foreword to another pedagogical work by this same writer, the statement was made that it would be hard to add very much to the results of the labors of some of the greatest performers and teachers of the organ, as we have those labors crystalized in their methods for the organ. This statement may be safely reiterated. There has been much of revision; some recent additions of new material. All of it presupposes a long period of study, free from thought of public appearance in any form.

THE purpose of this new method is not to *add* any great amount of matter to existing systems (although some new details are introduced); neither it is to introduce any radical departures from the accepted principles; but rather it is to remove the tendency to prolixity, over-elaboration and diffuseness which characterizes so many pedagogical works for the organ. It is an effort to provide a close-knit and systematic approach to the instrument, with economy of time and energy always retained in view.

THE name of the work, *First Lessons on the Organ*, is self-explanatory. The work is to cover the student's needs during the first year (or a shorter period, depending upon the talent, aptitude and devotion to practice of the student). The time and energy of both the pupil and the busy teacher is to be conserved as much as possible. Perhaps one pupil out of thirty ever becomes even a passable recitalist; for that one there are available many books to carry him on beyond the limits of this one; this book aims to give the other twenty-nine pupils precisely what they need, and to do it without the waste of a single line of music. That it may function to this end is the hope of

July, 1923.

NOTE TO THE TEACHER

FOR practical reasons this work is divided into three parts, the first two of which are to be pursued *simultaneously*. PART I, comprising pages one to seventeen inclusive, deals with manual technic. Part II, comprising pages eighteen to twenty-seven inclusive, deals with pedal technic. Each of these parts relates to its own branch of technic alone, and is arranged progressively. The pupil should be assigned *studies from both parts beginning with the very first lesson*. PART III comprises the remaining material, by far the largest part of the book, and is to be begun only after the first two parts have been thoroughly mastered.

CONTENTS

PART ONE

FIRST LESSONS ON THE ORGAN

Part One *)

1

GORDON BALCH NEVIN

STUDIES FOR THE MANUALS

TOUCH ESSENTIALS

1. It is of the greatest importance that the feeling of "weight" be maintained in the fingers at all times. Both in legato and staccato work the fingers should have that feeling of thoroughly relaxed weightiness which is associated with the best of modern pianoforte technic, in fact there is little or no difference between the *attack* of a key upon the pianoforte or upon the organ; the very great difference comes in the *release* of the key! In the accuracy of release demanded of the player the organ is far in advance of the pianoforte.

2. The best theory of key manipulation is that the key is always moved with the utmost precision and speed, i.e.—the attack is made with the utmost speed, the key is held for the exact duration necessary, and the key is then released again with the utmost speed possible. In each case it is the aim of the player to depress the key from its normal point of rest to its lowest point of touch-depth, in as nearly instantaneous a manner as is humanly possible.

3. In pure legato work the fingers are kept in very close relation to the surface of the keys—almost touching them at all times. As the touch becomes more detached, or staccato, the fingers will be necessarily somewhat more raised from the keys. In staccato work, however, it is essential that the feeling of weight be kept in the fingers; this serves to prevent a weak and flabby staccato in which the pipes would not be allowed to give their full speech.

4. Listen carefully for any trace of blurring, or overlapping of the notes; nothing is more vicious on the organ. This will be best avoided by attending carefully to the advice given in paragraph 2. At all times use more energy than is barely needed to depress the key, and apply and release that energy with the utmost velocity. A sluggish mentality has no place in music, and likewise a sluggish method of touch is altogether vicious upon the organ.

The musical exercises are presented in four staves, two for the Right hand and two for the Left hand. Each staff begins with a treble clef (Right) or bass clef (Left) and a common time signature (C). The exercises consist of eighth-note patterns. The first exercise for the Right hand shows a sequence of eighth notes with fingerings: 3 1, 4 2, 5 3, 4 2, 3 1, 4 2, 5 3, 4 2. The first exercise for the Left hand shows a sequence of eighth notes with fingerings: 3 5, 2 4, 1 3, 2 4, 3 5, 2 4, 1 3, 2 4. The second exercise for the Right hand is more complex, featuring slurs and fingerings: 3 1, 4 2, 4 2, 5 3, + 3 1, 4 2, 4 2, 5 3, 5 3, 4 2, 4 2, 3 1, + 5 3, 4 2, 4 2, 3 1. The second exercise for the Left hand also features slurs and fingerings: 3 5, 2 4, 2 4, 1 3, + 3 5, 2 4, 2 4, 1 3, 1 3, 2 4, 2 4, 3 5, + 1 3, 2 4, 2 4, 3 5.

SUBSTITUTION

In strict legato work upon the organ it frequently becomes necessary to resort to *substitution*,—or the replacing of one finger by another while the key is held down.

The organ utilizes a system of fingering based upon the group, or successive figure principle, and this normal system of fingering should always be employed where possible; however, it will be found that many progressions in two or more voices in the same hand are absolutely impossible with a strict legato touch unless recourse be had to substitutions. All substitutions should be executed with precision and decision.

*) To be pursued simultaneously with Part Two, which begins on Page 18.

+) These shifts must be very neatly and quickly executed.

Right

Left

Right

Left

Right

Left

THE GLISSANDO

A variety of *glissandi* are possible and necessary upon the manuals. The most frequently used is the glissando from one white key to another; this is illustrated in the next exercise following, where it is employed throughout for the lower voice of the octaves. In performing it one key is held down by the second joint of the thumb, the thumb is slid along on this depressed key until the tip (the normal striking point of the thumb) is nearly over the key to be played, and then the change of keys is quickly made. The utmost velocity in the final motion is necessary, and when so done the result is a perfect legato. The same procedure is essential with the frequently needed glissandi from black keys to immediately adjacent white keys; these latter, of course, are possible with any of the fingers as well as with the thumb.

Right

Left

THE MANUALS

From two to four manuals are commonly found in American organs. Two manual organs possess the *Great*, so called because it is largely composed of the foundational, full-toned stops, and the *Swell*, so called because of its capacity to increase or diminish in volume through the workings of the swell-box which encloses it. When a third manual is added it is always the *Choir* (occasionally the term *Orchestral* is used of late years), and the stops are partly of soft and delicate registers and partly solo stops of reed construction. The fourth manual is almost invariably the *Solo*, controlling stops of dominating power and fancy solo stops as well; sometimes the *Echo* organ (a remotely placed division) is played from the fourth manual also, although there is no settled procedure as to which manual shall control this division.

G.B.N.

Two systems of musical notation for piano and flute. The first system consists of two measures, and the second system consists of three measures. Fingerings are indicated by numbers 1-5 above or below notes. The piano part is in the bass clef, and the flute part is in the treble clef. The key signature is one sharp (F#).

4 Registration—Swell Flutes 8' & 4'

G. B. N.

Two systems of musical notation for piano and flute. The first system consists of two measures, and the second system consists of three measures. Fingerings are indicated by numbers 1-5 above or below notes. The piano part is in the bass clef, and the flute part is in the treble clef. The key signature is one flat (Bb).

6 Registration—Swell Vox Celeste and Salicional 8'

The fingering of Studies 6 and 7, should be worked out by the student and written into the music for correction by the teacher.

7 Registration—Vox Humana or Salicional

G. B. N.

8 Registration—Great Flutes 8' & 4'

G.F. HANDEL

This musical score is for the Great Flutes 8' & 4' part of a piece by G.F. Handel. It consists of three systems of music, each with a treble and bass staff. The key signature is one sharp (F#) and the time signature is 3/4. The notation includes various musical symbols such as notes, rests, and fingerings. Fingerings are indicated by numbers 1 through 5 above or below the notes. The first system contains measures 1 through 6, the second system contains measures 7 through 10, and the third system contains measures 11 through 12. The music features a mix of eighth and sixteenth notes, with some measures containing triplets.

9 Registration—Swell Salicional and 4' Flute

G.F. HANDEL

This musical score is for the Swell Salicional and 4' Flute part of a piece by G.F. Handel. It consists of two systems of music, each with a treble and bass staff. The key signature is one sharp (F#) and the time signature is 3/4. The notation includes various musical symbols such as notes, rests, and fingerings. Fingerings are indicated by numbers 1 through 5 above or below the notes. The first system contains measures 13 through 18, and the second system contains measures 19 through 24. The music features a mix of eighth and sixteenth notes, with some measures containing triplets.

J. S. BACH

Musical score for "The Rose Tree" in G major, 2/4 time. The score is written for voice and piano. The voice part features a melody with various ornaments (flats, naturals, sharps) and fingerings (1-5, 2-5, 4-2, 1-2, 1-2, 1-2). The piano accompaniment includes a bass line with a 5/4 measure and a treble line with a 4/5 measure. The piece concludes with a "rit." (ritardando) marking.

16 **Registration—Similar to previous studies**

M. G. FISCHER

This page of musical notation contains four systems of staves, each with a treble and bass clef. The music is written in a key with two flats (B-flat and E-flat) and a 3/4 time signature. The notation includes various musical notes, rests, and fingerings. The first system begins with a dynamic marking of *mf*. The second system features a *f* marking. The third system includes a *f* marking and a repeat sign. The fourth system concludes with a final cadence. The notation is complex, with many slurs and fingerings, indicating a technically demanding piece.

14

Larghetto

mp

FUGHETTA

(Allein Gott in der Höh' sei Ehr')

This Fughetta is to be practised at a very moderate tempo. There must be no blurring of the sixteenth-notes.

J. S. BACH

18

Moderato

mf

L. 3

First system of musical notation. Treble and bass staves in G major (one sharp). The treble staff features a complex melodic line with many slurs and fingerings (e.g., 2 3 4 5 5 4 3 2, 1 4 1 2, 4 2, 4 1 2 1 3 2 3 4 5 4 4 5). The bass staff has a more rhythmic accompaniment with slurs and fingerings (e.g., 3, 4, 3, 1). A dynamic marking *R.* (Ritardando) is present in the middle of the system.

Second system of musical notation. Continues the piece with similar melodic and harmonic development. Fingerings are indicated throughout, such as 2 4, 3, 2 3, 3 1, 4 2 5 4 5 4, 2 1 2 in the treble, and 2 1 3 2, 1 3 4 3 in the bass.

Third system of musical notation. The melodic line in the treble staff continues with slurs and fingerings like 3-4 1-2, 5, 4 3, 4 2. The bass staff has fingerings 2 1, 1, 1, 2, 1 3, 5, 2, 1-3, 1 2.

Fourth system of musical notation. Includes a dynamic marking *L.* (Lento) in the bass staff. The treble staff has fingerings like 2 1, 3, 1, 5, 4, 1, 5 4 1 2 3 4, 1-3 4. The bass staff has fingerings like 1 2 4, 1 3, 3, 2 1, 3, 3, 3 1 1-4 2, 2 3, 2.

Fifth system of musical notation. Ends with a dynamic marking *rit* (Ritardando) in the bass staff. The treble staff has fingerings like 5 2, 3, 5 4 2, 1 4 5, 3 1 2 4. The bass staff has fingerings like 3, 1 2, 1, 3-5, 1 2, 3 4.

CHORALE - PRELUDE

(Ach Herr, mich armen Sünder)

Observe the phrasings in this chorale-prelude very carefully. The sixteenth and thirty-second rests should be accurately observed.

19 Poco adagio

J. S. BACH

The musical score is written for piano in G major (one sharp) and common time (C). It consists of four systems of two staves each (treble and bass clef). The tempo is marked 'Poco adagio'. The score includes various musical notations such as eighth, sixteenth, and thirty-second notes, rests, and slurs. Fingerings are indicated by numbers 1-5 above or below notes. Some notes have specific articulation marks like 'tr' (trill) or 'acc' (accents). The piece concludes with a final cadence in the bass staff.

This page contains five systems of musical notation for a piano piece. The notation is written for both the right and left hands on a grand staff (treble and bass clefs). The key signature consists of two sharps (F# and C#). The music features a variety of rhythmic patterns, including eighth and sixteenth notes, often grouped with slurs. Fingerings are indicated by numbers 1 through 5 above or below the notes.

The systems are as follows:

- System 1:** The right hand plays a series of eighth-note patterns with slurs and fingerings (1, 2, 3, 1, 2, 2). The left hand provides a harmonic accompaniment with eighth notes and fingerings (1, 2, 1, 3, 5, 2, 1, 2).
- System 2:** The right hand continues with eighth-note patterns, including a triplet (3, 2, 4) and a five-note phrase (3, 4, 1, 5, 1). The left hand has a more active line with slurs and fingerings (1-2, 1-2, 1).
- System 3:** The right hand features a triplet (3, 2, 1) and other eighth-note figures. The left hand has a steady accompaniment with slurs and fingerings (3, 5, 1, 5, 1-4).
- System 4:** The right hand has a melodic line with slurs and fingerings (2, 2, 1, 4). The left hand continues with a harmonic accompaniment and fingerings (3, 2, 1, 3, 2, 1, 2).
- System 5:** The right hand concludes with a melodic phrase and a final chord, with fingerings (2, 3, 5, 2, 1, 2, 1). The left hand has a final accompaniment with a 'rit.' (ritardando) marking and fingerings (2, 4, 1-2, 1-4, 2, 1, 2, 5).

Part Two

STUDIES FOR THE PEDALS

ESSENTIAL RULES

1. Sit quietly in the middle of the bench.
2. To reach extreme notes turn the body as if upon a pivot.
3. Do not slide lengthwise along the bench.
4. Do not wear freak heels, or rubber soles or heels; these prevent correct technic.

COMPASS of the Pedal Clavier is:  or, in large organs: 

PEDAL TOUCH

1. Both the toe (ball of the foot) and the heel are used.
2. Both feet are used, both upon the notes of the clavier and also upon the expression controls (swell pedals).
3. Three fundamentals of pedal playing:
 - (a) Straight touch with toe or heel.
 - (b) Glissando (slide) with toe or heel.
 - (c) Substituting one foot for the other, or toe for heel or heel for toe of same foot.
 All pedalling may be said to be based on these three points.
4. Do not use the spaces between the black keys to find your notes! This is an antiquated and worthless method, taught by very few teachers and used by none of the best players.
5. Instead use the heels of the feet as "gauge points" from which to leap to other notes. In leaping an octave upon the pianoforte keyboard you do not first carefully feel your way between the black notes before playing the white one! You have practised leaps, gradually widening the distance, until your muscles have been trained to judge the necessary distance to be travelled. So on the pedals, when preparing for a leap of a fifth or over, bring the heels together first and then quickly make the necessary leap. This is an absolutely scientific piece of advice; it is upon a similar principle that all "touch typewriting" (in which the eyes never glance at the keyboard) is accomplished. In the touch typewriting the gauges are the two shift keys at the extremes of the keyboard; in the system of pedalling each heel is a gauge, or starting point, for any difficult skip or leap which the other foot must make.

The touch should be firm, quick in application and release, and full of nervous energy. More energy is needed than will suffice to depress the keys! And unless there be ample force, and it be speedily applied and removed, the resulting effect will be "mushy," slovenly and lacking in all the desirable crispness. A slowly attacked key is undesirable, and a slowly released key is an abomination! All touch must have "nerve," *i. e.*, vitality, decisiveness and speed, to produce clear organ playing; this applies to all touches from *legatissimo* to *staccatissimo*.

PEDAL INDICATIONS

- Λ or Δ above the note indicates right toe.
- Λ or Δ below the note indicates left toe.
- or U or ㄣ above the note indicates right heel.
- or U or ㄣ below the note indicates left heel.

EXERCISES FOR DEVELOPING FREE VERTICAL ACTION OF THE ANKLES

Practise these exercises very slowly, keeping the muscles of the legs entirely relaxed and free. Absolutely perfect rhythm and a steady tempo must be maintained. Alternate the feet with each exercise.

EXERCISES FOR DEVELOPING FREE SIDE-WAYS ACTION OF THE ANKLES

Firm pressure is essential with the side-ways action of the ankle, but stiffness must be avoided. Be very careful that there is no blurring as the foot leaves one note and goes to another.

Pedal exercises should be registrated chiefly with 8' stops, to which a soft 16' Gedeckt or Lieblich Bourdon may be added. Usually the 8' stops are drawn from the Manuals (Swell or Great) and are coupled down to the Pedals (Swell to Pedal, or Great to Pedal.)

28 **Left foot**

29 Right foot

THE FEET ALTERNATELY ON INTERVALS OF A THIRD

Keep the heels and knees close together, not stiffly, but relaxed. When this is done there will be no difficulty in playing these small intervals without glancing at the pedals at all.

EXERCISES TO STRENGTHEN THE ANKLES

Commence quite slowly and increase the speed very gradually indeed.

49

50

51 (Heels closely together)

52

53

54

CROSSING OVER AND UNDER

The heel of the foot which is to the front (towards the console) should be raised to permit free motion of the other foot as it passes under. Keep the knees together.

56

57

THE GLISSANDO

In glissando the sliding motion should be very quickly accomplished. Rubber heels should be discarded, as they impede free motion forward

58

59

60

SUBSTITUTING THE FEET

Count one *and*, two *and* etc., and substitute the one foot for the other on the *and* part of the count; it must be firmly and neatly done.

61

62

THE CHROMATIC SCALE

63 Used when expression pedals are not in use.

64 Used when expression pedals are in use, and for double, i. e. - octave, pedalling.

MAJOR SCALES

This page contains 12 staves of musical notation for major scales in bass clef. Each staff represents a different major scale, starting from C major and ascending by one semitone for each subsequent staff. The scales are written in a single line on a five-line staff. The notation includes whole notes, half notes, and quarter notes, with some scales featuring slurs and ties. The key signatures are indicated by sharps or flats at the beginning of each staff. The scales are: C major, C# major, D major, D# major, E major, E# major, F major, F# major, G major, G# major, A major, and B major. Each staff ends with a double bar line and a repeat sign.

MELODIC MINOR SCALES

This page contains 12 staves of musical notation for melodic minor scales, all written in bass clef. Each staff represents a different key signature, starting from B-flat major (two flats) and moving through various combinations of flats and sharps. The scales are presented in both ascending and descending directions, with specific notes marked with accents (^) and slurs. The notation includes whole, half, quarter, and eighth notes, as well as rests and repeat signs at the end of each scale. The key signatures are: B-flat major (two flats), B major (two sharps), C major (no sharps or flats), C minor (three flats), D major (two sharps), D minor (one flat), E major (three sharps), E minor (no sharps or flats), F major (one flat), F minor (four flats), G major (one sharp), and G minor (two flats).

Part Three

THE PEDALS WITH THE HANDS ALTERNATELY

Use 8' stops upon Swell for the manual part, 8' stops upon Great coupled to the Pedals for the Pedal part, adding a soft Pedal 16' if desired. To vary the registration invert this arrangement, using the Great for the manual part, and the Swell for the pedal part (coupled.) *The right and left hands are to be used alternately.*

65

G. B. N.

66

67

68

69

70

Measures 70-74 of a piano piece in D major, 2/4 time. The right hand features a melodic line with triplets and slurs, while the left hand provides a steady bass accompaniment with eighth and quarter notes. Measure numbers 3, 2, 4, 5, and 1 are indicated above the right hand staff.

71

Sir JOHN STAINER

Measures 71-78 of a piano piece in D major, 2/4 time, by Sir John Stainer. The right hand contains a complex melodic passage with many slurs and fingerings (1-5), including a triplet in measure 71. The left hand has a rhythmic accompaniment of eighth and quarter notes. Measure numbers 3, 2, 1, 3, 2, 1, 2, 1 are indicated above the right hand staff.

This musical score consists of three systems of piano exercises. Each system has a treble and bass staff. The first system (measures 30-48) includes fingerings (1, 2, 3) and accents (^) above notes. The second system (measures 49-60) continues the exercise with similar notation. The third system (measures 61-72) concludes the exercise. The key signature is B-flat major (two flats), and the time signature is 3/4.

EXERCISES FOR THE HANDS ALTERNATELY WITH THE PEDALS,
THE MANUAL PORTION BEING IN TWO PARTS

Practise with the right and left hands alternately. Be very careful to give all notes the full value, especially where shorter notes are played against longer ones, as in the second line.

73

G. B. N.

This musical score consists of two systems of piano exercises. Each system has a treble and bass staff. The first system (measures 73-80) includes accents (^) above notes. The second system (measures 81-84) concludes the exercise. The key signature is B-flat major (two flats), and the time signature is 3/4.

74

Two systems of musical notation for measures 74 and 75. The first system (measures 74-75) is in treble and bass clefs with a key signature of one sharp (F#) and a common time signature (C). The second system (measures 75-76) is in treble and bass clefs with a key signature of one sharp (F#) and a common time signature (C). The notation includes various musical symbols such as notes, rests, and dynamic markings.

75

Two systems of musical notation for measures 76 and 77. The first system (measures 76-77) is in treble and bass clefs with a key signature of two flats (Bb, Eb) and a 3/4 time signature. The second system (measures 77-78) is in treble and bass clefs with a key signature of two flats (Bb, Eb) and a 3/4 time signature. The notation includes various musical symbols such as notes, rests, and dynamic markings.

76

Two systems of musical notation for measures 78 and 79. The first system (measures 78-79) is in treble and bass clefs with a key signature of one sharp (F#) and a common time signature (C). The second system (measures 79-80) is in treble and bass clefs with a key signature of one sharp (F#) and a common time signature (C). The notation includes various musical symbols such as notes, rests, and dynamic markings.

SCALES IN TWO OCTAVES WITH THE HANDS ALTERNATELY

77

Exercise 77: C major scale. The right hand plays a whole-note chord progression (C4-E4-G4, C4-E4-G4, F4-A4-C5, E4-G4-B4) across four measures. The left hand plays an ascending and then descending eighth-note scale from C3 to C5, with fingerings indicated by numbers 1-5 and accents (^) over notes.

78

Exercise 78: D major scale. The right hand plays a whole-note chord progression (D4-F#4-A4, D4-F#4-A4, E4-G#4-B4, F#4-A4-C5) across four measures. The left hand plays an ascending and then descending eighth-note scale from D3 to D5, with fingerings indicated by numbers 1-5 and accents (^) over notes.

79

Exercise 79: E major scale. The right hand plays a whole-note chord progression (E4-G#4-B4, E4-G#4-B4, F#4-A4-C5, G#4-B4-D5) across four measures. The left hand plays an ascending and then descending eighth-note scale from E3 to E5, with fingerings indicated by numbers 1-5 and accents (^) over notes.

80

Exercise 80: F major scale. The right hand plays a whole-note chord progression (F4-A4-C5, F4-A4-C5, G4-B4-D5, A4-C5-E5) across four measures. The left hand plays an ascending and then descending eighth-note scale from F3 to F5, with fingerings indicated by numbers 1-5 and accents (^) over notes.

81

Exercise 81: G major scale. The right hand plays a whole-note chord progression (G4-B4-D5, G4-B4-D5, A4-C5-E5, B4-D5-F5) across four measures. The left hand plays an ascending and then descending eighth-note scale from G3 to G5, with fingerings indicated by numbers 1-5 and accents (^) over notes.

82

Left Hand

The following six studies should be practised for velocity, with the right and left hands alternately.

83

sempre legato

G. B. N.

84

85

86

34

87

Measures 87-88. Treble clef: Four measures of quarter notes (D, E, F#, G, A, B, C, D). Bass clef: Four measures of eighth notes with accents (D, E, F#, G, A, B, C, D).

88

Measures 89-90. Treble clef: Four measures of quarter notes (D, E, F#, G, A, B, C, D). Bass clef: Four measures of eighth notes with accents (D, E, F#, G, A, B, C, D).

89

Right Hand

Sir JOHN STAINER

Measures 91-92. Treble clef: Four measures of eighth notes with accents (D, E, F#, G, A, B, C, D). Bass clef: Four measures of eighth notes with accents (D, E, F#, G, A, B, C, D).

Measures 93-94. Treble clef: Four measures of eighth notes with accents (D, E, F#, G, A, B, C, D). Bass clef: Four measures of eighth notes with accents (D, E, F#, G, A, B, C, D).

Measures 95-96. Treble clef: Four measures of eighth notes with accents (D, E, F#, G, A, B, C, D). Bass clef: Four measures of eighth notes with accents (D, E, F#, G, A, B, C, D).

First system of music, measures 87-89. The right hand features a continuous eighth-note melody. The left hand provides a bass line with eighth and quarter notes. Measure 89 ends with a double bar line.

90

Left Hand

Sir JOHN STAINER

Second system of music, measures 90-92. The right hand contains eighth-note patterns with fingerings 1, 3, 1, 1, 1, 5, 3, 1. The left hand has a simple bass line. Measure 92 ends with a double bar line.

Third system of music, measures 93-95. The right hand features more complex eighth-note patterns with fingerings 4, 1, 1 2, 3, 1 3, 5. The left hand continues the bass line. Measure 95 ends with a double bar line.

Fourth system of music, measures 96-98. The right hand has eighth-note patterns with fingerings 3, 5, 1, 5, 3. The left hand provides a steady bass line. Measure 98 ends with a double bar line.

Fifth system of music, measures 99-101. The right hand contains eighth-note patterns with fingerings 3, 1, 2, 1, 1. The left hand continues the bass line. Measure 101 ends with a double bar line.

TRIOS

With the following Trio studies we enter upon the combination of hands and feet simultaneously employed. The trios should be first studied as exercises for each hand and pedals, before attempting the complete form.

The hands should be assigned to different manuals, as:— the right on the Swell and the left on the Great, and vice versa.

The registration should be principally of 8' stops on the manuals, but of different *quality*, as, for instance, Salicional upon the Swell and Melodia upon the Great. The pedals should have one manual coupled to them, and a soft 16' pedal stop should be added. The manuals must *not* be coupled. The stops should be varied continually, changing the combinations selected with each succeeding exercise; variety should be sought from the very beginning.

91 G. B. N.

92 G. B. N.

NOTE

It will be well if the pupil at this point begins to form the habit of shading off (*diminuendo*) the final measure of each trio. As was stated at the outset, the swell-boxes should be always partially open at least in practising; in this way the ear most clearly receives the relative degrees of perfection achieved by the student. However, it is more artistic, and will lead to the formation of a good habit if— at the close of each trio—the Swell-boxes are evenly and not too rapidly brought to their closed position: this closed position should be reached just as the final notes of the trio are released.

After this has been done care should be exercised to place the boxes in the partially open relation as above advised, before commencing to play the next trio or exercise. The memory should be strengthened on these two points.

93

G. B. N.

38
94

G. B. N.

First system of music (measures 38-41). The key signature is three sharps (F#, C#, G#) and the time signature is common time (C). The system consists of three staves. The top staff (treble clef) contains a melody with a triplet of eighth notes in measure 40 and a triplet of eighth notes in measure 41. The middle staff (bass clef) contains a bass line with a triplet of eighth notes in measure 40 and a triplet of eighth notes in measure 41. The bottom staff (bass clef) contains a bass line with a triplet of eighth notes in measure 40 and a triplet of eighth notes in measure 41. The system ends with a double bar line.

Second system of music (measures 42-45). The key signature is three sharps (F#, C#, G#) and the time signature is common time (C). The system consists of three staves. The top staff (treble clef) contains a melody with a triplet of eighth notes in measure 42 and a triplet of eighth notes in measure 43. The middle staff (bass clef) contains a bass line with a triplet of eighth notes in measure 42 and a triplet of eighth notes in measure 43. The bottom staff (bass clef) contains a bass line with a triplet of eighth notes in measure 42 and a triplet of eighth notes in measure 43. The system ends with a double bar line.

Third system of music (measures 46-49). The key signature is three sharps (F#, C#, G#) and the time signature is common time (C). The system consists of three staves. The top staff (treble clef) contains a melody with a triplet of eighth notes in measure 46 and a triplet of eighth notes in measure 47. The middle staff (bass clef) contains a bass line with a triplet of eighth notes in measure 46 and a triplet of eighth notes in measure 47. The bottom staff (bass clef) contains a bass line with a triplet of eighth notes in measure 46 and a triplet of eighth notes in measure 47. The system ends with a double bar line.

95

G. B. N.

Fourth system of music (measures 95-98). The key signature is two flats (Bb, Eb) and the time signature is 6/8. The system consists of three staves. The top staff (treble clef) contains a melody with a triplet of eighth notes in measure 95 and a triplet of eighth notes in measure 96. The middle staff (bass clef) contains a bass line with a triplet of eighth notes in measure 95 and a triplet of eighth notes in measure 96. The bottom staff (bass clef) contains a bass line with a triplet of eighth notes in measure 95 and a triplet of eighth notes in measure 96. The system ends with a double bar line.

Measures 35-38 of a musical score in B-flat major, 3/4 time. The score is written for piano with three staves: Treble, Middle, and Bass. Fingerings are indicated by numbers 1-5. Measure 35 features a triplet of eighth notes in the Treble staff (fingering 4, 1, 1) and a half note in the Bass staff (fingering 1). Measure 36 continues the triplet in the Treble staff (fingering 1, 2, 2) and a half note in the Bass staff (fingering 1, 3). Measure 37 features a triplet of eighth notes in the Treble staff (fingering 3, 1, 1) and a half note in the Bass staff (fingering 5, 3). Measure 38 features a triplet of eighth notes in the Treble staff (fingering 1, 2, 2) and a half note in the Bass staff (fingering 2).

Measures 39-42 of a musical score in B-flat major, 3/4 time. The score is written for piano with three staves: Treble, Middle, and Bass. Fingerings are indicated by numbers 1-5. Measure 39 features a triplet of eighth notes in the Treble staff (fingering 3, 1, 1) and a half note in the Bass staff (fingering 1). Measure 40 features a triplet of eighth notes in the Treble staff (fingering 4, 1, 1) and a half note in the Bass staff (fingering 1). Measure 41 features a triplet of eighth notes in the Treble staff (fingering 4, 2, 1) and a half note in the Bass staff (fingering 1). Measure 42 features a triplet of eighth notes in the Treble staff (fingering 1, 3, 1) and a half note in the Bass staff (fingering 2, 4).

96

G. MERKEL

Measures 96-99 of a musical score in D major, 3/4 time. The score is written for piano with three staves: Treble, Middle, and Bass. Fingerings are indicated by numbers 1-5. Measure 96 features a triplet of eighth notes in the Treble staff (fingering 1, 1, 1) and a half note in the Bass staff (fingering 2, 3, 1, 4). Measure 97 features a triplet of eighth notes in the Treble staff (fingering 1, 1, 1) and a half note in the Bass staff (fingering 1, 3). Measure 98 features a triplet of eighth notes in the Treble staff (fingering 2, 1, 3) and a half note in the Bass staff (fingering 5). Measure 99 features a triplet of eighth notes in the Treble staff (fingering 2, 1, 4) and a half note in the Bass staff (fingering 2, 1, 4).

Measures 100-103 of a musical score in D major, 3/4 time. The score is written for piano with three staves: Treble, Middle, and Bass. Fingerings are indicated by numbers 1-5. Measure 100 features a triplet of eighth notes in the Treble staff (fingering 3, 1, 1) and a half note in the Bass staff (fingering 2, 4). Measure 101 features a triplet of eighth notes in the Treble staff (fingering 4, 1, 1) and a half note in the Bass staff (fingering 1, 3). Measure 102 features a triplet of eighth notes in the Treble staff (fingering 3, 1, 1) and a half note in the Bass staff (fingering 3, 3). Measure 103 features a triplet of eighth notes in the Treble staff (fingering 1, 2, 3) and a half note in the Bass staff (fingering 2, 1, 1).

40
97

Sir JOHN STAINER

Measures 40-44 of the musical score. The key signature is one sharp (F#) and the time signature is 4/4. The score is written for piano with three staves: Treble, Middle, and Bass. Measure 40 features a triplet of eighth notes in the Treble staff and a half note in the Bass staff. Measure 41 has a half note in the Treble and a half note in the Bass. Measure 42 shows a half note in the Treble and a half note in the Bass. Measure 43 has a half note in the Treble and a half note in the Bass. Measure 44 features a half note in the Treble and a half note in the Bass.

Measures 45-49 of the musical score. The key signature is one sharp (F#) and the time signature is 4/4. The score is written for piano with three staves: Treble, Middle, and Bass. Measure 45 features a half note in the Treble and a half note in the Bass. Measure 46 has a half note in the Treble and a half note in the Bass. Measure 47 shows a half note in the Treble and a half note in the Bass. Measure 48 has a half note in the Treble and a half note in the Bass. Measure 49 features a half note in the Treble and a half note in the Bass.

Measures 50-54 of the musical score. The key signature is one sharp (F#) and the time signature is 4/4. The score is written for piano with three staves: Treble, Middle, and Bass. Measure 50 features a half note in the Treble and a half note in the Bass. Measure 51 has a half note in the Treble and a half note in the Bass. Measure 52 shows a half note in the Treble and a half note in the Bass. Measure 53 has a half note in the Treble and a half note in the Bass. Measure 54 features a half note in the Treble and a half note in the Bass.

98

Sir JOHN STAINER

Measures 98-102 of the musical score. The key signature is one sharp (F#) and the time signature is 4/4. The score is written for piano with three staves: Treble, Middle, and Bass. Measure 98 features a half note in the Treble and a half note in the Bass. Measure 99 has a half note in the Treble and a half note in the Bass. Measure 100 shows a half note in the Treble and a half note in the Bass. Measure 101 has a half note in the Treble and a half note in the Bass. Measure 102 features a half note in the Treble and a half note in the Bass.

First system of a musical score. It consists of three staves: a grand staff (treble and bass clef) and a single bass staff. The music is in common time. The first staff has a melodic line with a descending sequence of notes, marked with fingerings 5, 4, 3, 1, and 3. The second staff has a supporting line with a long note. The third staff has a rhythmic accompaniment with eighth notes and slurs.

Second system of the musical score. It continues the three-staff structure. The first staff features a melodic line with a long note and a slur. The second staff has a supporting line with a long note. The third staff has a rhythmic accompaniment with eighth notes and slurs.

99

CLÉMENT LORET

Third system of the musical score, starting at measure 99. It consists of three staves. The first staff has a melodic line with a descending sequence of notes, marked with fingerings 3, 2, 1, 3, 2, and 4. The second staff has a supporting line with a long note. The third staff has a rhythmic accompaniment with eighth notes and slurs, marked with the word *simile*.

Fourth system of the musical score. It continues the three-staff structure. The first staff features a melodic line with a long note and a slur. The second staff has a supporting line with a long note. The third staff has a rhythmic accompaniment with eighth notes and slurs.

Measures 42-44 of a musical score in G major, 3/4 time. The score is for piano. Measure 42: Treble clef has a half note G (finger 1) and a half note A (finger 5). Bass clef has a whole rest. Measure 43: Treble clef has a half note B (finger 1), a half note C (finger 2), and a half note D (finger 1). Bass clef has a half note E (finger 5) and a half note F (finger 3). Measure 44: Treble clef has a half note G (finger 1) and a half note A. Bass clef has a half note B (finger 4) and a half note C (finger 1).

Measures 45-48 of a musical score in G major, 3/4 time. Measure 45: Treble clef has a half note B (finger 2), a half note C (finger 3), and a half note D (finger 2). Bass clef has a half note E (finger 1) and a half note F (finger 2). Measure 46: Treble clef has a half note G (finger 3), a half note A (finger 4), and a half note B (finger 3). Bass clef has a half note C (finger 2) and a half note D (finger 4). Measure 47: Treble clef has a half note G (finger 2), a half note A (finger 3), and a half note B (finger 2). Bass clef has a half note C (finger 2) and a half note D (finger 3). Measure 48: Treble clef has a half note G (finger 2), a half note A (finger 3), and a half note B (finger 2). Bass clef has a half note C (finger 2) and a half note D (finger 3).

Measures 49-52 of a musical score in G major, 3/4 time. Measure 49: Treble clef has a half note G (finger 1), a half note A (finger 4), and a half note B (finger 1). Bass clef has a half note C (finger 1) and a half note D (finger 2). Measure 50: Treble clef has a half note G (finger 4), a half note A (finger 1), and a half note B (finger 4). Bass clef has a half note C (finger 1-2) and a half note D (finger 4). Measure 51: Treble clef has a half note G (finger 1), a half note A (finger 1), and a half note B (finger 1). Bass clef has a half note C (finger 1) and a half note D (finger 4). Measure 52: Treble clef has a half note G (finger 4), a half note A (finger 1), and a half note B (finger 4). Bass clef has a half note C (finger 1) and a half note D (finger 2).

Measures 53-56 of a musical score in G major, 3/4 time. Measure 53: Treble clef has a half note G (finger 1), a half note A (finger 4), and a half note B (finger 1). Bass clef has a half note C (finger 1) and a half note D (finger 2). Measure 54: Treble clef has a half note G (finger 4), a half note A (finger 3), and a half note B (finger 4). Bass clef has a half note C (finger 1) and a half note D (finger 3). Measure 55: Treble clef has a half note G (finger 4), a half note A (finger 2), and a half note B (finger 4). Bass clef has a half note C (finger 1) and a half note D (finger 3). Measure 56: Treble clef has a half note G (finger 4), a half note A (finger 2), and a half note B (finger 4). Bass clef has a half note C (finger 1) and a half note D (finger 3).

Measures 101-103 of a musical score in G major, 3/4 time. Measure 101: Treble clef has a half note G (finger 3), a half note A (finger 3), and a half note B (finger 3). Bass clef has a half note C (finger 1) and a half note D (finger 1). Measure 102: Treble clef has a half note G (finger 3), a half note A (finger 3), and a half note B (finger 3). Bass clef has a half note C (finger 1) and a half note D (finger 1). Measure 103: Treble clef has a half note G (finger 3), a half note A (finger 3), and a half note B (finger 3). Bass clef has a half note C (finger 1) and a half note D (finger 1).

Measures 97-101 of a musical score in G major (one sharp). The score is written for piano with three staves: Treble, Middle, and Bass. Measures 97-99 feature a complex, flowing melody in the Treble staff with many beamed sixteenth and thirty-second notes. The Middle staff provides a rhythmic accompaniment with eighth and sixteenth notes. The Bass staff has a steady bass line with some chords. Measure 100 continues the Treble melody, and measure 101 concludes the system with a 'rit.' (ritardando) marking and a fermata over the final notes.

102

Sir JOHN STAINER

Measures 102-106 of a musical score in B-flat major (two flats). The score is written for piano with three staves: Treble, Middle, and Bass. Measures 102-104 feature a complex, flowing melody in the Treble staff with many beamed sixteenth and thirty-second notes. The Middle staff provides a rhythmic accompaniment with eighth and sixteenth notes. The Bass staff has a steady bass line with some chords. Measure 105 continues the Treble melody, and measure 106 concludes the system with a fermata over the final notes.

103

JAQUES LEMMENS

The image displays a piano score for a piece by Jaques Lemmens, specifically page 44, measure 103. The score is written in 3/4 time and is organized into four systems, each containing three staves (treble, middle, and bass). The music is characterized by intricate fingerings, often indicated by numbers 1 through 4, and various musical notations such as slurs, accents, and rests. The key signature features one sharp (F#). The notation includes eighth and sixteenth notes, as well as rests, with dynamic markings like accents and slurs. The score concludes with a double bar line and a repeat sign.

104

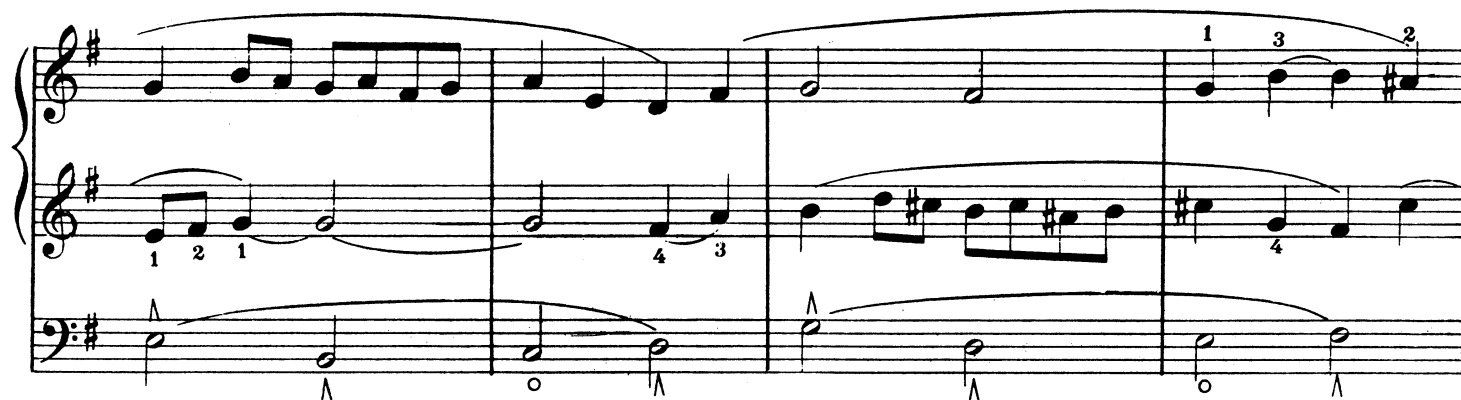

Sir JOHN STAINER

First system of the musical score. It consists of three staves: a treble staff, a grand staff (treble and bass), and a bass staff. The key signature is one sharp (F#) and the time signature is 4/4. The treble staff begins with a triplet of eighth notes (F#, G, A) and continues with a melodic line. The grand staff has a whole note chord (F#, C) in the first measure, followed by a half note (F#) and a quarter note (C) in the second measure, and then a half note (F#) and a quarter note (C) in the third measure. The bass staff has a half note (F#) and a quarter note (C) in the first measure, followed by a half note (F#) and a quarter note (C) in the second measure, and then a half note (F#) and a quarter note (C) in the third measure. The system ends with a half note (F#) and a quarter note (C) in the fourth measure.

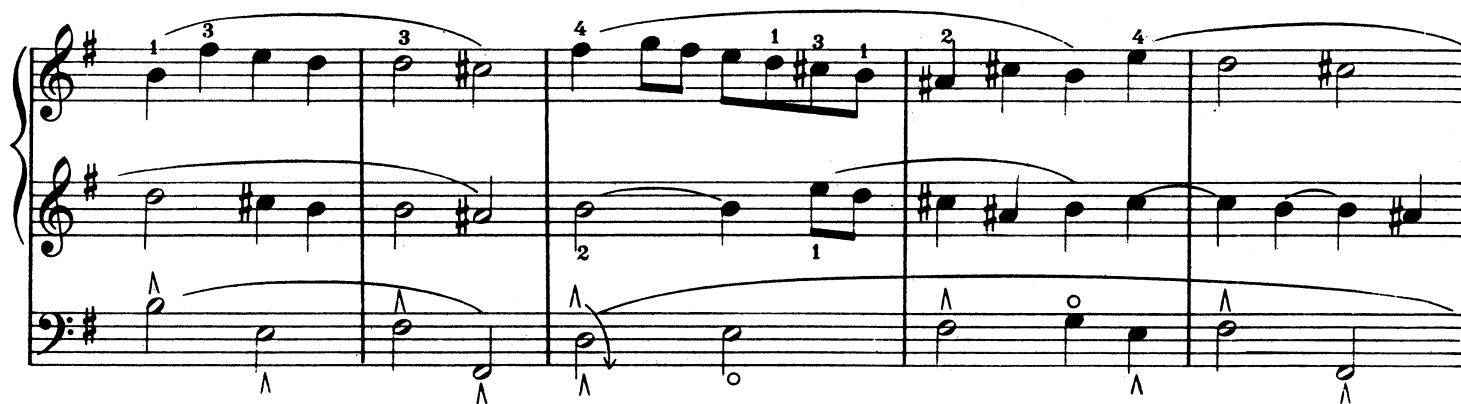

Second system of the musical score. It consists of three staves: a treble staff, a grand staff (treble and bass), and a bass staff. The key signature is one sharp (F#) and the time signature is 4/4. The treble staff begins with a half note (F#) and a quarter note (G), followed by a half note (A) and a quarter note (B), and then a half note (C) and a quarter note (D). The grand staff has a half note (F#) and a quarter note (C) in the first measure, followed by a half note (F#) and a quarter note (C) in the second measure, and then a half note (F#) and a quarter note (C) in the third measure. The bass staff has a half note (F#) and a quarter note (C) in the first measure, followed by a half note (F#) and a quarter note (C) in the second measure, and then a half note (F#) and a quarter note (C) in the third measure. The system ends with a half note (F#) and a quarter note (C) in the fourth measure.

Third system of the musical score. It consists of three staves: a treble staff, a grand staff (treble and bass), and a bass staff. The key signature is one sharp (F#) and the time signature is 4/4. The treble staff begins with a half note (F#) and a quarter note (G), followed by a half note (A) and a quarter note (B), and then a half note (C) and a quarter note (D). The grand staff has a half note (F#) and a quarter note (C) in the first measure, followed by a half note (F#) and a quarter note (C) in the second measure, and then a half note (F#) and a quarter note (C) in the third measure. The bass staff has a half note (F#) and a quarter note (C) in the first measure, followed by a half note (F#) and a quarter note (C) in the second measure, and then a half note (F#) and a quarter note (C) in the third measure. The system ends with a half note (F#) and a quarter note (C) in the fourth measure.

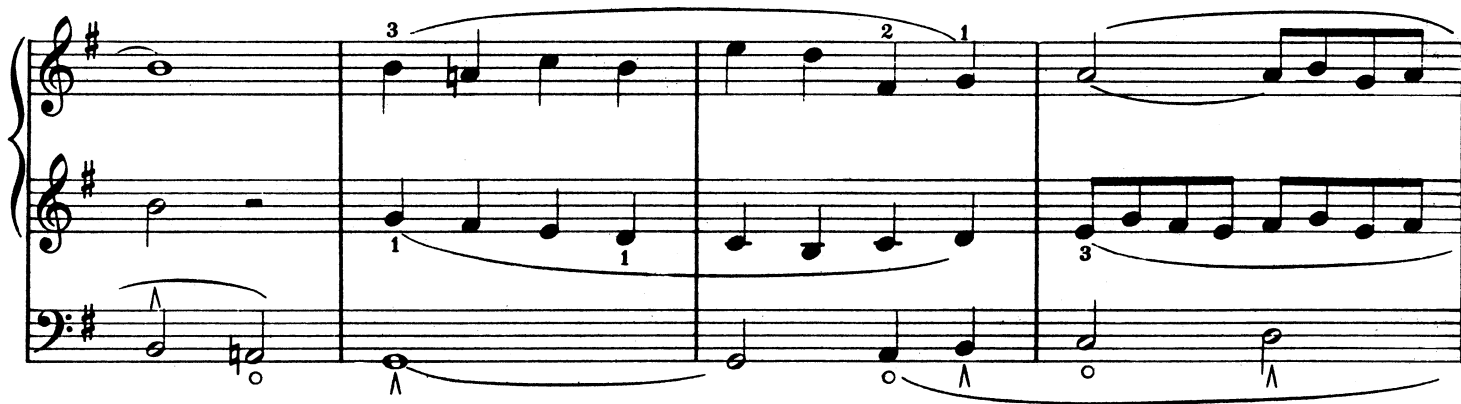

Fourth system of the musical score. It consists of three staves: a treble staff, a grand staff (treble and bass), and a bass staff. The key signature is one sharp (F#) and the time signature is 4/4. The treble staff begins with a half note (F#) and a quarter note (G), followed by a half note (A) and a quarter note (B), and then a half note (C) and a quarter note (D). The grand staff has a half note (F#) and a quarter note (C) in the first measure, followed by a half note (F#) and a quarter note (C) in the second measure, and then a half note (F#) and a quarter note (C) in the third measure. The bass staff has a half note (F#) and a quarter note (C) in the first measure, followed by a half note (F#) and a quarter note (C) in the second measure, and then a half note (F#) and a quarter note (C) in the third measure. The system ends with a half note (F#) and a quarter note (C) in the fourth measure.

First system of musical notation, measures 1-4. The key signature is one sharp (F#). The system consists of three staves: Treble, Middle, and Bass. Fingerings are indicated by numbers 1-4. Measure 1: Treble has a half note D4, Middle has a half note D4, Bass has a half note D3. Measure 2: Treble has a half note E4, Middle has a half note E4, Bass has a half note E3. Measure 3: Treble has a half note F#4, Middle has a half note F#4, Bass has a half note F#3. Measure 4: Treble has a half note G4, Middle has a half note G4, Bass has a half note G3. Fingerings: Treble (1, 2, 1, 4, 3), Middle (1, 2, 1, 4, 3), Bass (1, 2, 1, 4, 3).

Second system of musical notation, measures 5-8. The key signature is one sharp (F#). The system consists of three staves: Treble, Middle, and Bass. Fingerings are indicated by numbers 1-4. Measure 5: Treble has a half note A4, Middle has a half note A4, Bass has a half note A3. Measure 6: Treble has a half note B4, Middle has a half note B4, Bass has a half note B3. Measure 7: Treble has a half note C#5, Middle has a half note C#5, Bass has a half note C#4. Measure 8: Treble has a half note D5, Middle has a half note D5, Bass has a half note D4. Fingerings: Treble (1, 3, 3, 4, 1, 3, 1, 2, 4), Middle (1, 3, 3, 4, 1, 3, 1, 2, 4), Bass (1, 3, 3, 4, 1, 3, 1, 2, 4).

Third system of musical notation, measures 9-12. The key signature is one sharp (F#). The system consists of three staves: Treble, Middle, and Bass. Fingerings are indicated by numbers 1-4. Measure 9: Treble has a half note E4, Middle has a half note E4, Bass has a half note E3. Measure 10: Treble has a half note F#4, Middle has a half note F#4, Bass has a half note F#3. Measure 11: Treble has a half note G4, Middle has a half note G4, Bass has a half note G3. Measure 12: Treble has a half note A4, Middle has a half note A4, Bass has a half note A3. Fingerings: Treble (3, 2, 1, 3), Middle (3, 2, 1, 3), Bass (1, 1, 1, 3).

Fourth system of musical notation, measures 13-16. The key signature is one sharp (F#). The system consists of three staves: Treble, Middle, and Bass. Fingerings are indicated by numbers 1-4. Measure 13: Treble has a half note B4, Middle has a half note B4, Bass has a half note B3. Measure 14: Treble has a half note C#5, Middle has a half note C#5, Bass has a half note C#4. Measure 15: Treble has a half note D5, Middle has a half note D5, Bass has a half note D4. Measure 16: Treble has a half note E4, Middle has a half note E4, Bass has a half note E3. Fingerings: Treble (4, 4, 3, 2, 1), Middle (4, 4, 3, 2, 1), Bass (4, 4, 3, 2, 1).

First system of the musical score. It consists of three staves: a grand staff (treble and bass clef) and a separate bass staff. The key signature is one sharp (F#). The first system contains four measures. Fingerings are indicated by numbers 1, 2, and 5. There are slurs and accents throughout the system.

Second system of the musical score. It consists of three staves. The key signature is one sharp (F#). The second measure contains the instruction *rall.* (rallentando). Fingerings are indicated by numbers 1, 2, 3, 4, and 5. There are slurs and accents throughout the system.

Third system of the musical score, starting at measure 105. It consists of three staves. The key signature is two flats (Bb, Eb). The system contains four measures. Fingerings are indicated by numbers 1, 2, 3, and 5. There are slurs and accents throughout the system.

Fourth system of the musical score. It consists of three staves. The key signature is two flats (Bb, Eb). The system contains four measures. The third measure contains the instruction *rit.* (ritardando). Fingerings are indicated by numbers 1, 2, 3, and 4. There are slurs and accents throughout the system.

REGISTRATION

THE first steps in registration should consist of a thorough investigation of the qualities of tone peculiar to the different stops—used singly, and *not* in combination. Until a working knowledge of the varied individuality of the registers is secured no good can come from attempts at grouping them. This matter has been spoken of in the introductory portion of this method, and the pupil will find it fully elucidated in the author's *Primer of Organ Registration*.

All practical registration proceeds according to three plans:

1. Single colors are used in each voice.
2. Combined colors are used in mass (chord or solo) formation.
3. The two methods just given are variously combined as may be necessary by the presence of mass and *obbligati* in the music under consideration.

Following upon a thorough study of the prime qualities furnished by single stops, the matter of mass registration, or group work, should be taken up. This is best approached through a study of the various families of similar tone. Of these there are four generally recognized, these four being the fewest in number to which the manifold varieties of present-day tone may be compressed. They are:

1. Diapason, or organ foundational tone.
2. Flute tone, including *Gedeckt* tone.
3. String tone, including *Gamba* tone.
4. Reed tone, both *Clarinet* and *Trumpet* tone.

The first three groups are used continually in both mass and single register formations; the last is rather more used in single register plan—such as for solo stop and *obbligati* work—except when much of the foundation work is already called into use, where it becomes possible to use the group in chord work as well. There are of course many exceptions to be found, especially in the field of orchestral transcriptions.

The stops should be studied carefully by the pupil, and an attempt should be made to write out a list of all the stops upon the particular organ in use, grouping them under the heads given above; after this has been done the list should be corrected either by the teacher or by reference to the dictionary of organ stops to be found in the *Primer of Organ Registration*. In this way a conception of the relationship of stops of similar construction will be achieved.

A FEW HINTS

A organ students should undertake a course of study in Orchestration and Instrumentation; a very large part of the difficulty encountered in the use of organ stops can be avoided by the organist who has been taught to think music from the orchestral standpoint. If the pupil is so situated that this is impossible, much help can be derived from careful study of one or more of the standard works on the subject; the imagination will at least be stimulated by an understanding of the flexibility of orchestral technic.

The *tessitura* or general location, high, low or medium, of a passage will often determine something of the registration to be employed. For instance, strings (violes, salicionals, etc.), are almost invariably more pleasing in tones in the lower octaves of their compass than in the upper, while the very opposite is true of manual flutes—which are usually much more pure and liquid in the upper than in the lower octaves. Diapasons are, as a rule, good throughout their entire compass if well made, and the same may broadly be said of good reeds; poorly made reeds are a law unto themselves—and may be good in portions of their compass and bad in others, or they may be bad throughout. Granted that they are good stops, the safest method is to employ them on passages which would be effective if played by their orchestral prototypes; it has been said that the organ can never be successfully made to sound like the orchestra, and this is essentially true, but no mistake will be made in using the organ reed and brass imitations on passages which would be so scored for the orchestra.

CHANGES IN REGISTRATION

STOP and coupler changes should invariably be made at points of phrasing, *i. e.*, *in silence*, and never when a note or chord is being held. This is equivalent to saying that stops should never be changed during a phrase, but always at the beginning or end of it. The period of silence may be very short, perhaps only a sixteenth-rest, but there must be silence in the part to which stops are being added or taken away from when the change itself is made. This may be taken as one of the very few rules to which the exceptions are so few as to be negligible.

THE MANUAL COUPLERS

THE manual couplers are used to combine the resources of the various divisions of the organ, so that the player may command from one clavier the combined sonority of two, three, or more sections of the instrument.

Two kinds of couplers are available :

1. Unison couplers, coupling note for note at unison pitch.
2. Octave couplers, coupling at the super- or sub-octave.

The former are in constant use, and the latter very nearly as much so in modern playing. Octave couplers are furnished to operate both between manuals, as Swell to Great 4', and also on their own clavier, as Swell to Swell 16'.

Super-couplers are most useful in connection with chord work upon soft or *mezzo* combinations; they are also called into play with most moderate size instruments to increase the brilliancy of the full organ.

Sub-couplers are generally most valuable on melody effects which are written rather high upon the clavier, also with some of the French organ music in which the chord work is purposely written quite high with the necessity of using sub-couplers in mind. With the majority of chord work—written in the middle and lower registers of the clavier—sub-couplers should be very rarely employed. The habit of using sub- and super-couplers continually upon one manual should be avoided; nothing but muddiness and screaminess, *i. e.*, an all-top-and-bottom effect, will result from such a procedure.

THREE COMPOSITIONS FOR ACQUIRING THE LEGATO TOUCH

The legato touch consists of a perfect connection of the notes of a phrase, one to the other, the action of releasing one note and depressing the note following being exactly simultaneous. Therefore, it naturally follows that there can be permitted no overlapping of the tones, nor any shortening of their depressed length.

Firm pressure, speedy and decisive attack and release of the keys, the fingers in rather close position to the surface of the keys — these are the essential points to bear in mind. Obviously, it is essential that particular care be taken to give each and every note its exact duration — no more, no less.

PRELUDE

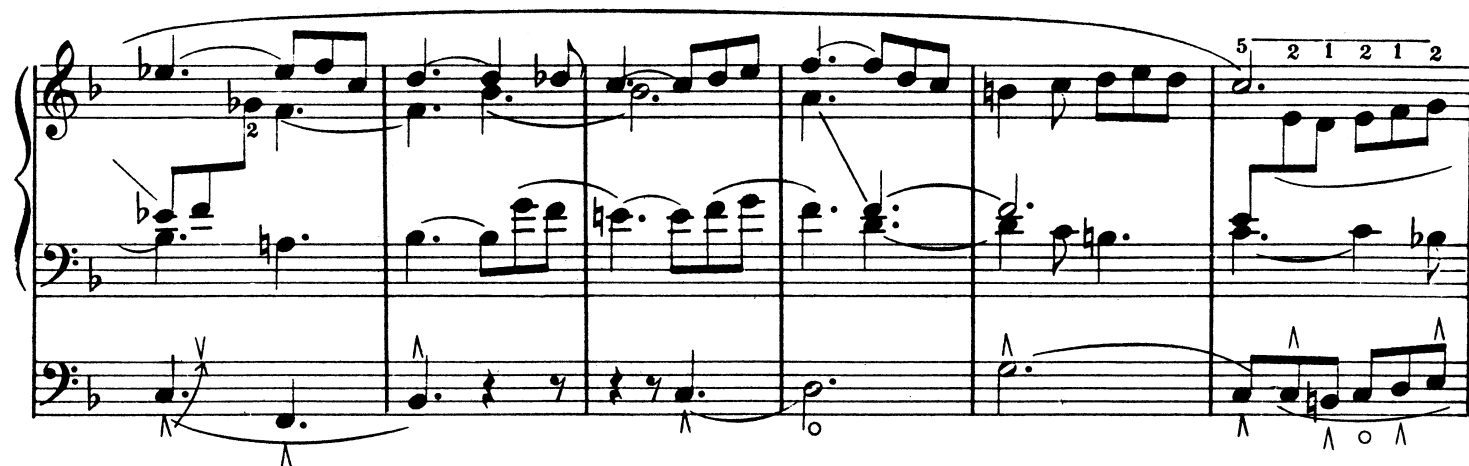

Prepare {Swell — 8' and 4' Foundation stops
{Pedal — 16' Bourdon, Sw. to Ped.

ADOLPH HESSE

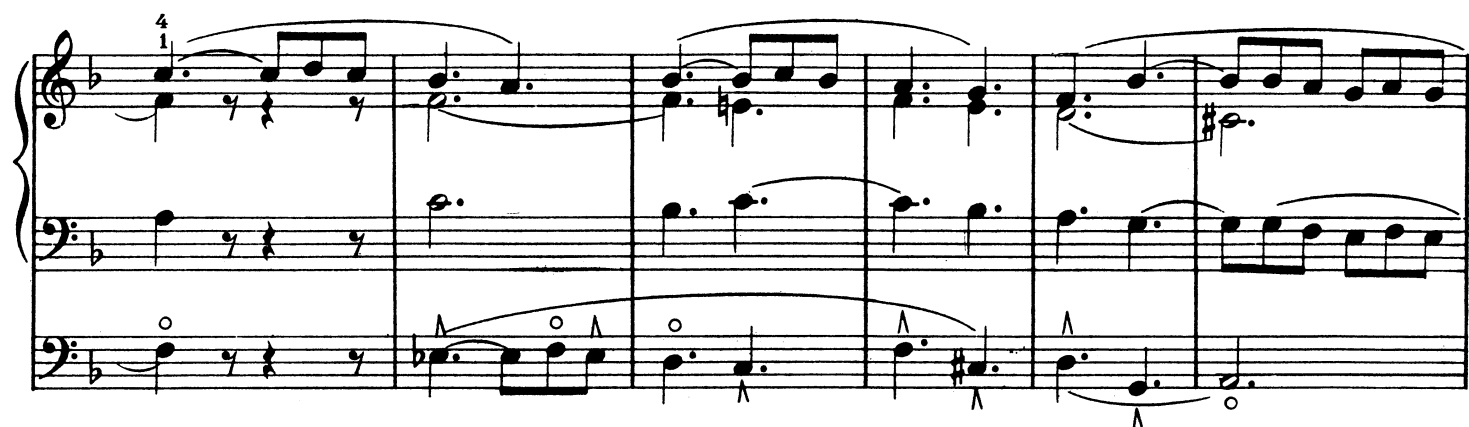

106 Andante

The musical score is for a prelude in B-flat major, 6/8 time, marked Andante. It is composed of three systems of music. The first system begins with a 'Swell' marking and a 'mf' dynamic. The second system continues the piece with a 'mf' dynamic. The third system concludes the piece with a 'mf' dynamic. The score is written for three staves: Treble, Bass, and Pedal. The Pedal part is marked with 'A' and 'O' symbols. The score includes various musical notations such as notes, rests, slurs, and fingerings.

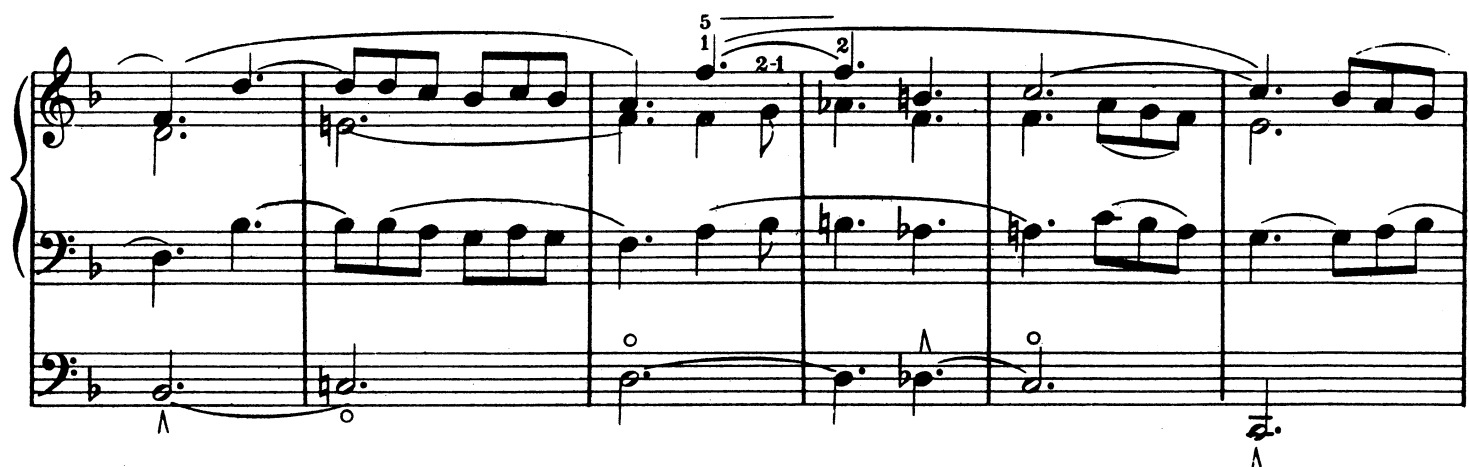

* When the name of the desired Manual is placed *exactly between* the two staves, it indicates that *both hands* are to be used on that Manual.

First system of musical notation. The system consists of three staves: Treble, Bass, and a lower Bass staff. The Treble staff has a key signature of one flat (B-flat) and a common time signature. It features a melodic line with eighth and sixteenth notes, including a fingering '5' and a sequence '2 1 2 1 2'. The Bass staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '2'. The lower Bass staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '1'.

Second system of musical notation. The system consists of three staves: Treble, Bass, and a lower Bass staff. The Treble staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '4'. The Bass staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '1'. The lower Bass staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '1'.

Third system of musical notation. The system consists of three staves: Treble, Bass, and a lower Bass staff. The Treble staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '5'. The Bass staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '1'. The lower Bass staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '1'.

Fourth system of musical notation. The system consists of three staves: Treble, Bass, and a lower Bass staff. The Treble staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '5'. The Bass staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '1'. The lower Bass staff has a key signature of one flat and a common time signature, with a melodic line and a fingering '1'. The word *rit.* is written above the Bass staff.

Note. When registration directions are placed above or below, but *close* to the music for either hand, only that hand is affected. (See Measure 3 of Handel Slow Movement below.) Both hands would change manuals only when the registration directions are placed equally distant from both lines.

FUGUED POSTLUDE

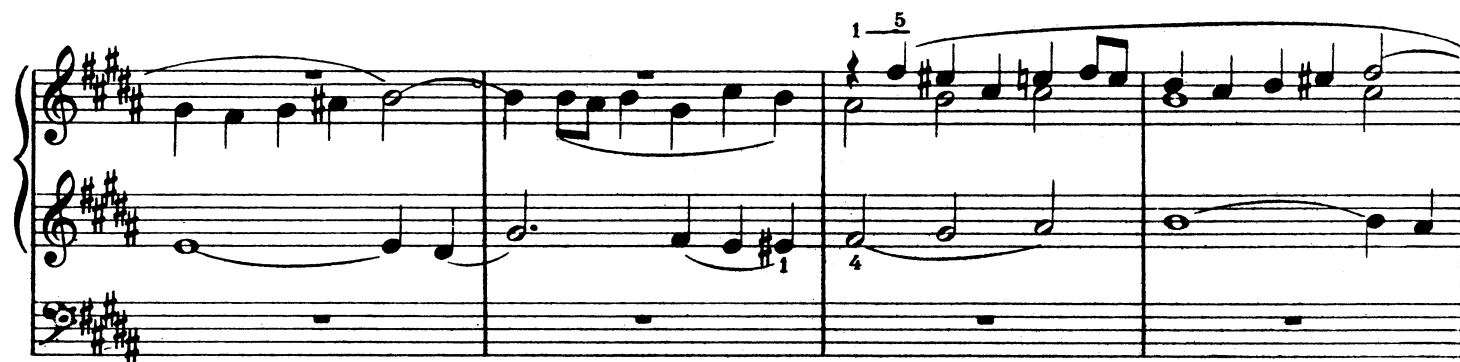

C. H. RINCK
Ed. by G. B. N.

108 Moderato

The musical score is written for three staves: Treble, Bass, and Pedal. The key signature is G major (one sharp). The time signature is 3/4. The tempo is marked 'Moderato'. The score begins with a 'Prepare' instruction for the organ, specifying the 8' and 4' stops with the Oboe, the Great Diapasons and Flutes at mezzo-forte (*mf*), and the Pedal 16' and 8' stops, with the Swell and Great to Pedal and Swell to Great. The Treble staff starts with a whole note chord, followed by a series of eighth and sixteenth notes. The Bass staff enters with a half note, followed by eighth and sixteenth notes. The Pedal staff enters with a half note, followed by eighth and sixteenth notes. The score includes various musical notations such as slurs, ties, and fingering numbers (1-5). The piece concludes with a final cadence in the Treble voice.

First system of musical notation. The key signature is three sharps (F#, C#, G#). The system consists of three staves. The top staff has a whole rest. The middle staff is labeled "Sw." and contains a melodic line with fingerings 2, 1, 4, 2. The bottom staff has a whole rest.

Second system of musical notation. The top staff continues the melodic line with a slur and fingerings 1, 5. The middle staff has a whole note with a sharp sign. The bottom staff has a whole rest.

Third system of musical notation. The top staff has a melodic line with a slur. The middle staff has a melodic line with a slur and a sharp sign. The bottom staff is labeled "Gt." and has a whole rest.

Fourth system of musical notation. The top staff has a melodic line with a slur and fingerings 4 2, 4 2, 3 1-2, 2-1. The middle staff has a melodic line with a slur. The bottom staff is labeled "Sw." and has a melodic line with a slur and fingerings 1, 2, 3, 4, 5, 4, 3, 2, 1.

Fifth system of musical notation. The top staff has a melodic line with a slur and fingerings 5 2, 4 2, 3 1-2, 2-1. The middle staff is labeled "Gt." and has a melodic line with a slur and fingerings 1, 2, 3, 4, 5, 4, 3, 2, 1. The bottom staff has a melodic line with a slur and fingerings 1, 2, 3, 4, 5, 4, 3, 2, 1.

First system of musical notation. The treble clef staff contains a melodic line with a slur over measures 1-2, marked with a '1' above the first measure. The bass clef staff contains a bass line with a slur over measures 1-2, marked with a '2' below the first measure. The key signature is three sharps (F#, C#, G#).

Second system of musical notation. The treble clef staff contains a melodic line with a slur over measures 1-2, marked with a '2' above the first measure and a '4' above the second measure. The bass clef staff contains a bass line with a slur over measures 1-2, marked with a '3' below the first measure. The key signature is three sharps (F#, C#, G#).

Third system of musical notation. The treble clef staff contains a melodic line with a slur over measures 1-2, marked with a '4' above the first measure. The bass clef staff contains a bass line with a slur over measures 1-2, marked with a '3' below the first measure. The key signature is three sharps (F#, C#, G#).

Fourth system of musical notation. The treble clef staff contains a melodic line with a slur over measures 1-2, marked with a '2-1' below the first measure. The bass clef staff contains a bass line with a slur over measures 1-2, marked with a '2' below the first measure. The key signature is three sharps (F#, C#, G#).

Fifth system of musical notation. The treble clef staff contains a melodic line with a slur over measures 1-2, marked with a '5' above the first measure and a '3' above the second measure. The bass clef staff contains a bass line with a slur over measures 1-2, marked with a '3' below the first measure and a '2-4' below the second measure. The key signature is three sharps (F#, C#, G#).

THREE COMPOSITIONS EMPLOYING THE STACCATO TOUCH

The word *staccato* indicates notes detached or separated one from another, and the staccato touch is one which achieves brilliancy, piquancy and great vitality by reason of this detachment. Theoretically, a number of species of staccato are possible: mezzo staccato, staccato, staccatissimo, etc., but in actual practice it will be found that the tempo adopted for any given composition will largely determine the degree of separation to be adopted.

The vital principle that must be grasped is the fact that all staccato playing must retain the feeling of weight in the hand and in the fingers, and that the touch must be executed entirely through the depth of the key-touch of the clavier. This is merely another way of stating that the pipes must be given sufficient time to speak in each and every case — no matter how staccato the touch in use may be. It will be found that a very speedy and rather forceful attack—one which brings the key down firmly upon the felt cushioning underneath the key — will, if the weight be kept in the hands and fingers, permit complete speech of the pipes.

G. B. N.

Moderato

109

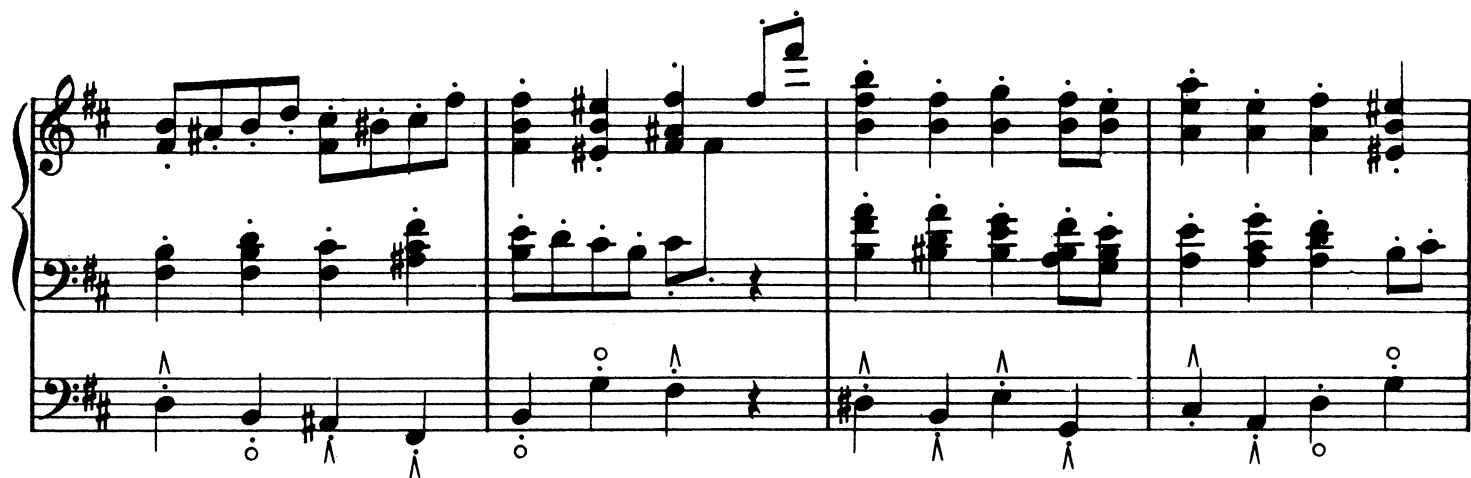

Gt. *mf* (Sw. coupled)

First system of musical notation. It consists of three staves. The top staff is in treble clef with a key signature of one sharp (F#). It contains a series of eighth and sixteenth notes, some beamed together. The middle staff is in bass clef and contains a series of eighth and sixteenth notes, some beamed together. The bottom staff is in bass clef and contains a series of eighth and sixteenth notes, some beamed together.

Second system of musical notation. It consists of three staves. The top staff is in treble clef with a key signature of one sharp (F#). It contains a series of eighth and sixteenth notes, some beamed together. The middle staff is in bass clef and contains a series of eighth and sixteenth notes, some beamed together. The bottom staff is in bass clef and contains a series of eighth and sixteenth notes, some beamed together. Dynamics include *f* (forte) and *mf* (mezzo-forte).

Third system of musical notation. It consists of three staves. The top staff is in treble clef with a key signature of one sharp (F#). It contains a series of eighth and sixteenth notes, some beamed together. The middle staff is in bass clef and contains a series of eighth and sixteenth notes, some beamed together. The bottom staff is in bass clef and contains a series of eighth and sixteenth notes, some beamed together.

Fourth system of musical notation. It consists of three staves. The top staff is in treble clef with a key signature of one sharp (F#). It contains a series of eighth and sixteenth notes, some beamed together. The middle staff is in bass clef and contains a series of eighth and sixteenth notes, some beamed together. The bottom staff is in bass clef and contains a series of eighth and sixteenth notes, some beamed together. Dynamics include *mp* (mezzo-piano) and *p* (piano). A fermata is present over the final measure of the top staff.

The tempo to be adopted for this movement by Merkel will be determined by the promptness of speech of the pedal organ pipes and action; it must be no faster than will permit full speech of each staccato pedal note. The registration should be Diapasons and Flutes 8' & 4' on the manuals, and Diapasons and Bourdons 16' & 8'; with manuals coupled on the pedals.

G. MERKEL

110 Allegro risoluto

The musical score is written for piano and pedal. It consists of four systems of staves. The piano part is written on a grand staff (treble and bass clef), and the pedal part is written on a single bass clef staff. The tempo is 'Allegro risoluto'. The key signature has two flats (B-flat major). The time signature is 3/4. The score includes numerous slurs, ties, and articulation marks (accents and staccato). Fingerings are indicated by numbers 1-5. The piece ends with a 'rit.' (ritardando) marking.

The staccato passages in thirds in this selection should be shaken freely off the wrist, being played thereby very crisply indeed. Give the pedal notes their precise duration marked.

Andante

Ch.

3

Sw.

The musical score is divided into four systems, each consisting of three staves. The first system begins with a treble clef, a key signature of three flats, and a 3/4 time signature. The tempo is marked 'Andante'. The first staff of the first system contains a triplet of eighth notes. The second staff of the first system contains a series of staccato chords. The third staff of the first system contains a series of staccato notes. The second system continues the piece with various musical notations including triplets and staccato markings. The third system shows more complex passages with many beamed notes and staccato markings. The fourth system concludes the piece with a final cadence.

Note: On a two manual organ the parts here assigned to the Choir should be played on the Great, using for them a soft Diapason or Gamba.

First system of a musical score in B-flat major (three flats). The treble clef staff features a melodic line with a triplet of eighth notes, followed by a series of eighth and sixteenth notes, and a final triplet of eighth notes marked *ten.* The bass clef staff provides harmonic support with a single eighth note followed by rests.

Second system of the musical score. The treble clef staff begins with a *Ch.* (Chorus) marking and contains a melodic line with eighth and sixteenth notes. The bass clef staff features a steady eighth-note accompaniment.

Third system of the musical score. The treble clef staff includes a *add 4 Flutes* instruction. The system concludes with a triplet of eighth notes marked with a 5 over a 3. The bass clef staff continues with its eighth-note accompaniment.

Fourth system of the musical score. The treble clef staff contains a complex melodic line with various fingerings indicated by numbers 1 through 5. The bass clef staff features a melodic line with eighth notes and rests, marked with accents (^).

THE ELEMENTS OF SWELL PEDAL TECHNIC

The first, foremost and the really vital function of the swell pedal is to properly exploit phrases; by this is meant that by reason of the proper shading or enunciation of the phrases it is made clear to the ear of the listener just what each and every phrase is—both as to length and contour. Regarded as an appendage to the art of phrasing, the use of the swell pedal becomes relatively simple.

It is fortunate that the *necessary* shadings are so obvious and so easy to grasp that even students of only moderate natural talent may attain to a correct and dignified control of the expression levers. The requirements of phrase-enunciation are:

1. The phrase should be *commenced* with a *slight* accent, and be gradually increased in volume during the first part of the phrase.
2. The *latter* part of the phrase should be diminished, something of a “fade-away” being simulated on the final note. The end of the phrase *must* be diminished.

Below is pictured the *necessary* shading of a single phrase, no account being taken of possible lesser shadings in the body of the phrase.

It will be seen that the motion of opening is begun slightly in advance of the phrase, and that the full closing is accomplished exactly at the end of the last note of the phrase. By so doing the slight accent is obtained, and also the unpleasant effect of a completely closed swell-box is avoided. Below is indicated the effect of this treatment on two lines of the choral, *O Sacred Head, now wounded*:

Phrasing and Preparatory Opening of Swell (Simultaneous)

It will be seen that to obtain the desired effect it is essential that the opening of the swell be started during the silence which is part and parcel of phrasing; to draw the student's attention to this important point the mark || is used throughout the two compositions immediately following to indicate this silence during which the motion of opening the swell is begun. Consequently the conjunction of the marks || and < in this manner: || < indicates the two principal steps in starting the new phrase; when so done the effect can not be otherwise than good.

It will be noted that there are given fractional indications, as $\frac{1}{4}$, $\frac{1}{2}$, etc., showing to approximately what degree the swell-box is to be opened. The student should at first endeavor to conform his movements of the swell pedal to approximately the extent denoted by the fractional markings; later, as skill develops, this will be unnecessary, as the correct habits will have been formed.

This subject will be found fully considered, and in a more exhaustive degree than is here possible, in the volume *Swell Pedal Technic*, by the same author, and published by the Oliver Ditson Company.

ALEX. GUILMANT

Edited by G.B.N.

113 Adagio

The musical score is for a piece titled "Adagio" by Alex. Guilmant, Op. 113. It is written for piano and organ. The score is in 4/4 time and B-flat major. The tempo is marked "Adagio". The dynamics include "mp" (mezzo-piano). The score is divided into three systems, each with a grand staff (treble and bass clef) and a separate line for the pedal part. The score includes various musical notations such as slurs, ties, and dynamic markings like "1/3", "1/6", "1/8", "1/4", "1/2", and "3/4". The pedal part is marked with "Gt." and "Gt. to Ped.".

The student must learn to differentiate between compositions in which the pedal part is either much detached or of slight melodic value and those compositions (usually of a contrapuntal nature) in which the pedal part is of equal value with the manual parts. In the latter style of composition the use of the swell pedals is made secondary to the correct use of the pedal clavier, the swell-pedal motions being, so to speak, fitted around the pedal clavier requirements. Such a composition is this movement by Guilmant, in which the perfect legato demanded of the pedals limits the degree to which the swells may be used.

First system of musical notation. Treble and bass staves. Fingerings: 5 4 3 2, 3 2 4 1, 3-4 2. Time signatures: 2/3, 1/6. Dynamics: Λ .

Second system of musical notation. Treble and bass staves. Fingerings: 4-5-4 2 1 2, 4 2, 3-5 1 4 1, 5 4 3-4 1 3, 3 4. Time signatures: 2/3, 1/6, 3/4, 1/2, 3/4. Dynamics: Λ .

Third system of musical notation. Treble and bass staves. Fingerings: 5 2 4, 1 3 2 1, 3 5 4 3. Time signatures: 1/2, 1/3, 1/6. Dynamics: Λ . Marking: *rit.*

Fourth system of musical notation. Treble and bass staves. Fingerings: 1 2 2 3 5 4-5 4, 1 2 3 4 3 4 3 4-. Markings: *Sw.*, *a tempo*, *Gt. to Ped. off*. Time signatures: 1/3, 1/6.

67

The image shows two systems of musical notation for piano. The first system consists of two staves (treble and bass) with complex fingerings and articulation marks. The second system also consists of two staves with similar complexity. The notation includes various note values, rests, and dynamic markings like 'full'.

Note. The pupil may to advantage review the compositions illustrating legato and staccato touch, adding the use of the Swell Pedal under the guidance of the teacher.

THE DETACHED TOUCH

In the playing of most chord passages, especially when chords are played in conjunction with either notes of longer or shorter value in the Pedals, a touch is required which is neither legato nor staccato, but which partakes of the nature of both. This touch is usually termed the Detached Touch; when combined with a strong accent it is essentially the same as the familiar *Marcato* touch of the pianoforte.

In essence the Detached touch is neither perfectly connected as is the legato, nor is it characterized by the separation (usually one-half of the note-length) which distinguishes the staccato. In reality the disconnection takes from the sounding time of the notes about one-quarter of their actual length.

Legato	Staccato	Detached
--------	----------	----------

The image shows musical notation illustrating Legato, Staccato, and Detached touch. The notation shows three measures of chords on a single staff. The first measure is Legato, the second is Staccato, and the third is Detached.

The attention of the student must be concentrated on the production of a clearly separated articulation: this is best accomplished by permitting a slight motion of the fingers above the keys, thus absorbing the time eliminated from the sounding portion of the note-length in the travelling distance of the fingers. The conception of weight in the fingers and hand is not in the least disturbed by this increased striking distance, it must be noted. The Detached Touch is the accepted touch for large chord work — especially when used with a powerful registration — and the result is vigorous and vital to the last degree. Absolute “squareness” of attack and release in chord playing are, of course, essential in this as in all other varieties of touch.

The following two compositions illustrate the method of use of the Detached Touch, the first at a rather slow tempo and the second at a more rapid one.

First system of musical notation. The score is in G major (one sharp) and 4/4 time. It features a piano accompaniment with a treble and bass staff. The bass staff includes a 'Sw.' (Swamp) section with a fermata. The melody is in the treble staff, consisting of eighth and quarter notes with accents.

Second system of musical notation. The piano accompaniment continues. The treble staff has a 'Sw. 3' section. The bass staff has a 'Gt.' (Guitar) section. The system concludes with a 'rit.' (ritardando) marking and a text instruction: 'Reduce Sw. to *mf* Gt. to 8' Flute'.

Third system of musical notation. The tempo changes to 'a tempo'. The treble staff features a 'Gt.' section with a melodic line. The bass staff has a 'Sw.' section. The system includes various musical notations such as slurs, ties, and fingerings (4, 3, 3-5).

Fourth system of musical notation. The treble staff has a melodic line with fingerings (4, 5, 4, 5, 3, 2, 1, 2, 1, 2, 3, 2, 1, 2). The bass staff has a 'Gt. to Ped.' section. The system concludes with a 'Gt. to Ped. off' section and a 'mp' (mezzo-piano) dynamic marking.

THE TREATMENT OF SLURS AND BRIEF PHRASES

The correct execution of slurred notes and chords upon the organ is one of very great importance, for the slurred effect is one of the most important note-groupings in organ music.

In the first of the two following compositions, the Postlude by Merkel, it is used in connection with full chords, and when correctly played assists greatly in producing the desired accents upon the first and third beats.

In the second composition, a Chorale-Prelude by Bach, the occasional slurs in the manual inner-voices tend to keep the melody in the desired position of prominence. The last two notes of each of the constantly recurring pedal figures of five notes are treated very much as if they were marked for slurring, and when so played give a desirable verve and "springiness" to the pedal.

In the execution of slurs it is essential that the feeling of weight in the touch be carried over from the first note to the second and at once released — shortening the sounding time of the second note by one-half. The connection is perfectly legato between the two notes, and after the weight is carried over to the second note the release is smartly and energetically performed.

G. MERKEL, Op. 134

116 Allegro con fuoco

The musical score is for a postlude in G major, 2/4 time, marked 'Allegro con fuoco'. It is composed of three systems of music. Each system consists of three staves: a grand staff (treble and bass clef) for the manual and a single bass staff for the pedal. The manual part features complex chordal textures with many slurs and accents. The pedal part features a recurring five-note figure with slurs. Fingerings are indicated by numbers 1-5. A 'legato' marking is present in the second system. The score ends with a final cadence in the third system.

CHORALE-PRELUDE

(Alle Menschen müssen sterben)

J. S. BACH

117 Moderato

The musical score is presented in four systems, each with three staves (Treble, Bass, and a lower Bass staff). The key signature is one sharp (F#), and the time signature is 3/4. The tempo is marked 'Moderato'. The score includes various musical notations such as notes, rests, accidentals, and fingerings. The first system begins with a 'Sw. mp' marking. The second system includes a 'simile' marking. The third system includes a 'rall.' marking. The score concludes with a final cadence in the lower Bass staff.

THE HYMN TUNE

IN the execution of hymn tunes certain principles should be observed—these principles tending to produce an authoritative and leading effect from the organ.

1. The touch employed upon the *manuals* will vary from a pure legato to a detached touch—the exact shade being determined by the style of hymn tune, the size of the choir and congregation, and other local conditions of the moment: the degree of detachment will increase in larger buildings, and at such times as it becomes necessary to correct “dragging,” and will become less in small buildings and under conditions where the response of the congregation is precise and energetic.
2. The basic *pedal* touch will be legato, thus insuring ample support to the more detached manual chord work.
3. In “giving out” (playing over the hymn tune before the congregational singing begins)—precisely the desired tempo for the singing must be adopted and rigidly held to; much of the ragged and slovenly congregational singing heard in churches may be traced to a careless and unrhythmic “giving out” of the hymns by the organists.
4. The “line phrasing” must be sharply enunciated, *i. e.*, at the end of each line—where breath must be taken—the hands of the player should leave the keys for just the length of time necessary to draw a breath for the next line. Phrasing is just as important for the organist as for those whom he is leading, and the lay singer must not be expected to breathe at the right time and attack the new phrase correctly if the organist is carelessly “smearing” through the hymn tune with no regard for the line-by-line phrasings. The clear enunciation of the “line-by-line” construction of hymn tunes is of the utmost importance.

THE MANUAL TOUCH

THE desired effect from the manuals in hymn tune playing is one of connection, smoothness and clearness, and yet it is absolutely imperative that not a fraction of rhythmic propulsion be lost. To attain these ends the touch employed must be carefully studied. This touch has as its first and great aim *a precise repetition of all repeated notes*.

Having its birth many years ago during the era of the tracker-action (with its attendant heavy demands on the player's strength) a fetish has grown up that hymn tunes should have all repeated notes indiscriminately tied over; this fetish is utterly without scientific or musical justification, and has, more than all other causes together, been the means of keeping back good congregational singing. Make no mistake, you cannot destroy rhythm on the organ and expect lay singers to produce it themselves unaided! The organ has the key to the situation.

Instead of this vicious destruction of rhythm make your touch one full of natural verve by repeating (as legato in the repetition as you may choose) each and every repeated manual note. Note carefully that the repetition must be precise in its connection with foregoing

and following chords—as is illustrated by the following figure in which each square represents a chord—closely connected with its neighbors, but not coinciding with one another:

This precise connection and repetition must not be confounded with either the indiscriminate tying over, which will result in an effect as pictured in this manner:

Nor must it be confounded with that school of thought which believes (erroneously) that to repeat any given note upon the organ the first note must be shortened in its sounding-length by one half, and which results in a staccato effect of which the following is a picture:

It will be seen that to produce this desired effect the fingers must not be raised much above the surface of the keys, and that both the attack and the release of each and every chord be smartly and energetically done; only at the desired points of phrasing must the hands be raised from the keys.

THE PEDAL TOUCH

THE pedal organ must give support and foundation to the manuals, and —because of the wide latitude which is permitted the individual taste of the performer—will require very careful and thorough study.

The pedals must come under the same rules as the manuals in regard to the phrasing at the conclusion of each and every line. There is no excuse or justification for allowing the pedal part to tie over from one line to another, and the only explanation for so doing is a vicious *habit* which has grown out of lazy and indolent touch methods, and which should be promptly stamped out.

Some tying over of pedal notes is permissible—the desirable places for so doing being: 1. Where a beat is divided, making the repetition in notes of less than one beat; 2. Where a dotted or tied note carries the length of a note over a beat, producing a syncopation of the following note. In the latter case it is well to tie over until the note which comes upon an accented beat.

Repetitions in the pedals are best accomplished *by repeating* upon the octave of the given note (either below or above, whichever is most convenient), rather than upon the same note. This is due to the inertia of speech of all large pipes, and it will be found that the desired qualities of support and clear rhythm are best secured by executing desired repetitions on the octave. This is illustrated in the following four hymn tunes:

WARWICK, C.M.

SAMUEL STANLEY

118

LAMBETH, C.M.

WILLIAM SCHULTHES

119

The pedal part of the tune "Lambeth" indicates a slight modification of the repetition rule; in the second measures of the first and third lines but one repeat on the octave is given: this is permissible where, as in this case, the first repetition falls *on the beat which forecasts a resolution in the harmony*. Note also the heightening of the manual slur at the end of the second line by the slur introduced into the pedal part.

The Pedal part of the tune "Sabbath" illustrates the rule given - that repetitions of notes of less value than one beat may be disregarded in general usage. Note however, that sluggishness on the part of the congregation may often be broken up by repeating these shorter notes on the octave during a portion of the first verse; these short notes so used have an element of "urge" not unlike octave repetitions upon kettle-drums.

SABBATH, 7's

LOWELL MASON

120

The musical score is written for a piano and features a grand staff with treble and bass clefs, along with a separate bass line. The key signature is one sharp (F#), and the time signature is 3/4. The tempo is indicated as 120. The score is divided into four systems, each containing six measures. The melody is primarily in the treble clef, featuring eighth and sixteenth notes. The bass line provides harmonic support with chords and single notes. The tempo is marked as 120.

The fourth example, "Coronation," indicates a still further modified pedalling; because of the steady block-chord" formation of the four voice parts it is possible to dispense with some of the octave repetitions in the pedal part. Observe however, that the repetitions are so arranged as to throw the accents strongly upon the strong beats and syllables of each line, also), and that in the pedal part there is invariably a repetition between the fourth count and the first count of the following measure. This rule should be invariably followed.

CORONATION, C. M.

OLIVER HOLDEN

121

The conventional practice in giving out hymns in the service is to use only a moderate amount of power (Swell organ, *mf*) and either omit pedal or use soft stops; during the congregational singing the Great organ Diapasons and Flutes, with full or nearly full Swell organ and sufficient 16' and 8' Pedal stops should be used. Both manuals should then be coupled to the Pedals.

The playing of Interludes between the verses of the hymns has largely fallen into disuse, as it tends to disrupt the mood of the hymns, and wastes time.

The organist should allow plenty of time between verses for the drawing of breath by the lay singers, the insertion of one full measure of rest at this point being a safe rule to follow. Part of this inserted time may be given to prolonging the last chord of the hymn, but it is essential that there be at least *two beats of absolute silence* before commencing the new verse.

Moderato

The musical score is written for three parts: Swell (Sw.), Great (Gt.), and Pedal (Ped.). The key signature is B-flat major (two flats) and the time signature is 4/4. The tempo is marked 'Moderato'. The score is divided into four systems. The first system shows the Swell part with a melodic line and the Pedal part with a bass line. The second system introduces the Great part with a melodic line. The third system continues the Great part with a more complex melodic line. The fourth system concludes the piece with a final melodic line in the Great and a bass line in the Pedal. Fingerings and articulations are indicated throughout the score.

First system of musical notation, featuring a grand staff with treble and bass clefs. The music includes various notes, rests, and fingerings (e.g., 2 3 2 1, 5 4, 3 4 3 2, 1 2 1 2, 2, 1, 4, 3, 2, 1 4 3). There are also dynamic markings like λ and \circ .

Second system of musical notation, featuring a grand staff with treble and bass clefs. The music includes various notes, rests, and fingerings (e.g., 4 2, 5 3, 2 1, 5 4, 5 2, 1 3 1, 2, 1 4 3 2, 1 4 3). There are also dynamic markings like λ and \circ . The system is labeled with "Gt." and "Sw.".

Third system of musical notation, featuring a grand staff with treble and bass clefs. The music includes various notes, rests, and fingerings (e.g., 5 1, 2 5, 3 4, 3 4, 1, 2 3, 2 3, 1 - 1, 3 1, 2). There are also dynamic markings like λ and \circ .

Fourth system of musical notation, featuring a grand staff with treble and bass clefs. The music includes various notes, rests, and fingerings (e.g., 5, 4, 1, 2, 3, 4, 1, 2, 3, 4). There are also dynamic markings like λ and \circ .

First system of musical notation. The treble clef staff contains a melodic line with a slur over the first two measures and a fingering of 5. The bass clef staff contains a bass line with a slur over the first two measures and a fingering of 5. Above the treble staff, a sequence of numbers 4, 2, 3, 2, 1, 2-1, 5, 4, 3 is written, with a bracket over the first three numbers. The label "Gt." appears above the treble staff in the third measure and below the bass staff in the second measure. The system ends with a double bar line.

Second system of musical notation. The treble clef staff contains a melodic line with a slur over the first two measures and a fingering of 1. The bass clef staff contains a bass line with a slur over the first two measures and a fingering of 3. Above the treble staff, the label "Sw:" appears. The system ends with a double bar line.

Third system of musical notation. The treble clef staff contains a melodic line with a slur over the first two measures and a fingering of 3. The bass clef staff contains a bass line with a slur over the first two measures and a fingering of 2. Above the treble staff, the label "Gt.to Ped.off" appears. The system ends with a double bar line.

Fourth system of musical notation. The treble clef staff contains a melodic line with a slur over the first two measures and a fingering of 3. The bass clef staff contains a bass line with a slur over the first two measures and a fingering of 2. Above the treble staff, the label "reduce gradually" appears. The system ends with a double bar line.

123 Grave

The musical score is written for three staves: Treble, Bass, and Pedal. The key signature is one sharp (F#), and the time signature is 3/4. The tempo is marked 'Grave'. The dynamics include 'Gt. f' (Great forte) and 'ff' (fortissimo). The score is divided into systems of measures. The first system (measures 1-12) features a slow, steady bass line with chords in the right hand. The second system (measures 13-24) introduces a more active right hand with eighth notes. The third system (measures 25-36) continues the eighth-note pattern in the right hand. The fourth system (measures 37-48) features a more complex right hand with sixteenth notes and a bass line with eighth notes. The fifth system (measures 49-60) continues the sixteenth-note pattern in the right hand. The sixth system (measures 61-72) features a more complex right hand with sixteenth notes and a bass line with eighth notes. The seventh system (measures 73-84) continues the sixteenth-note pattern in the right hand. The eighth system (measures 85-96) features a more complex right hand with sixteenth notes and a bass line with eighth notes. The ninth system (measures 97-108) continues the sixteenth-note pattern in the right hand. The tenth system (measures 109-120) features a more complex right hand with sixteenth notes and a bass line with eighth notes. The eleventh system (measures 121-123) concludes the piece with a final chord.

ADAPTING PIANO ACCOMPANIMENTS TO THE ORGAN

Much of the choral music used in the services of the church is provided with accompaniments written primarily for the piano; virtually all modern sacred solos and duets come under this rule, and a very large proportion of anthems are also subject to it. It therefore follows that the organist must early in his studies begin consideration of the principles used in adapting such accompaniments to the organ. Fortunately the necessary rules are few in number and simple to grasp.

The first point to be grasped is this: All chords must have their essential notes grouped so as to bring about a clear and well balanced effect. This means that three things must be done:

1. Thick chords in low register (left hand) must be thinned-out, or raised into middle register.
 2. Wide spaces or "gaps" in the middle of chords must be filled.
 3. Extremely high treble chords must be lowered, the effect of high placement being secured by adding 4' stops.
- Herewith are illustrated examples of each kind of treatment:

125

As written for Piano

As played on the Organ

The old rough rule of chord-writing — that spaces wider than one octave be avoided for the most part — is a safe one for the student to keep in mind in adapting extended chords to the organ. It is only for special effects that the laws of chord balance are violated; in most good chord writing the intervals are rather evenly spaced in their relation to each other.

The second point to be grasped is this: that the piano is a percussion instrument, and as such makes use of many rhythmic figures for the purpose of keeping up the flow of sound, but that the organ is the exact opposite — being the most perfect tone-sustaining instrument in the realm of music. The effect of this dissimilarity will be to alter the values of certain rhythmic figures when taken over from one instrument to the other. Certain rhythmic figures will sound thin and feeble when applied to the organ, others will be so full of repetition as to give a choppy and disjointed effect.

Among the figures of the first class are such as the following:

Piano

These would be treated as studies in duplication — the left hand holding soft legato chords as a background, and the right playing chords as written on a more prominent registration. This treatment is frequently used in orchestra scoring, and is equally well adapted for organ use. These examples would be played in this manner:

127

Organ

mf Ch.

There frequently occur extended passages of single notes, in various forms of broken chord-work or arpeggios; these are effective on the piano because of the sustaining effect of the damper pedal. Upon the organ they are thin and poor, and incapable of giving sufficient support to the vocal part. They are treated in a similar manner to the example just given.

128

As written for Piano

As played on the Organ

Ascending arpeggios are usually treated in a different manner, although when their compass is not too great it is possible to treat them as in the previous example. When they range through two or more octaves, however, it is better to treat them as shown in the next example. Note that there is given first the conventional method of tying over each note of the arpeggio, and that immediately following is given a somewhat better method in which only a portion of the total number of notes composing the arpeggio is tied over—this method resulting in a somewhat clearer presentation of the arpeggio than is possible with the conventional treatment; more study and skill is required by this latter method, it may be said.

129

Piano

Organ

Improved Treatment

Repeated chords upon the organ, unless expressly indicated as staccato, should be partially connected in accompanimental work; usually the top notes of the chords are connected, unless a counter-melody can be evolved by connecting selected inner notes. A fairly satisfactory effect will generally be secured by connecting the top and bottom notes, playing the inner notes as legato as possible in order not to weaken the middle of the chords, but still being careful to repeat all of the inner notes. Below is given an example of this treatment.

130

Piano

Organ

Tremolo figures in the left hand of piano accompaniments, and tremolando chords, most frequently met with in accompaniments to recitatives, are treated in like manner to some of the preceding examples.

Chords are trilled in part, not as a whole, and preferably in the middle portion of the keyboard. Octave tremolos in the bass are shifted to the tenor octave and the trills are made on smaller intervals than the octave, thirds or fourths being especially good.

By making use of both sustaining and rhythmic effects, in this manner, nothing is lost of the agitato feeling desired, and at the same time the method of achievement is entirely organistic and pleasing. Below are given several specimens:

131

Piano

Organ

or

Enough has doubtless been indicated in this section to show the student that the adaption of piano accompaniments calls for a close study of chord-balance to the end that all chords will be pleasantly distributed— neither too high nor too low; that the substitution of a sustained-tone instrument for a percussion one calls for changes in rhythmic figure-work, with frequent amplification of the figures by means of block chord duplicating on a second manual; and finally, but to a much less degree than either of the first two points, that some passages of repeated chords will require a moderate amount of binding together to avoid choppiness. Before the close of the pupil's "first year at the organ" much experimentation along these lines should have been undertaken, under the teacher's guidance.

SOME HINTS ON ORGAN TECHNIC FOR THEATRE PURPOSES

THE broadcast introduction of the pipe organ into the theatres, especially the theatres showing moving pictures, is one of the most startling developments of the period; with it has come a style of playing peculiar to the theatre. This style is the antithesis of conventional (church) organ playing and is rapidly becoming so well standardized that certain principles may safely be laid down for guidance of the organist who wishes to enter this field of work.

TOUCH

THE organ in the theatre must be treated as a substitute for the orchestra, and must be played with a technic and in a style which shall result in an effect approximating the orchestra. Contrari-wise, anything remotely suggesting the organ as used in church services is to be carefully avoided. If the reader will ask himself what two elements are most characteristic of the organ in church, he will inevitably be forced to reply—a strict legato touch, and the confinement of the hands to chord work on one manual for much of the time; these then are the elements to avoid, and in so doing it will be found that two positive principles will be discovered. They are:

1. The effect of solo and accompaniment is to be used for the largest part of theatre playing. The avoidance of one-manual chord work will naturally compel the player to use a solo effect in some part of the keyboard compass; it may be in the treble, suggesting a violin or flute solo, or in the middle register suggesting a cornet or a clarinet solo, or in the lower register where the 'cello or trombone are most at home, but it will be prominent somewhere. It is not too much to say that ninety per cent of all theatre playing is best done with solo and accompaniment, rather than "block chord" arrangement.
2. Strict legato simultaneously in both hands and pedals is to be carefully avoided at all times in the theatre. Legato may be present in *one* part—in fact very often is—but it is a legato which is well broken up by sharp phrasing and set in relief by detachment or even actual staccato in the other parts. Again this is entirely in harmony with the technic of the orchestra—which technic is your model. Sharply defined rhythms are part and parcel of the music of the theatre and such rhythms are best secured by means of much detachment of chord work as well as by frequent use of varied staccato touches.

PRACTICE IN ADAPTING

NATURALLY both of these principles imply that the theatre player must cultivate the ability to adapt other music to his needs than pure organ music, in fact in actual theatre work very little pure organ music is used; the bulk of the material comes from orchestra music, operatic music, songs, and violin and 'cello compositions. The student is earnestly advised to begin at an early moment the adaption of violin and 'cello compositions and songs to the organ, striving to acquire a facility which will permit playing the melody with left or right hand with uniform ease. Perhaps in no other way can the subject be so well approached. Later the salon literature of the piano may be attempted, and finally the use of "piano conductor" parts from orchestrations may be attempted; in these latter the cueing will be of great aid in registration.

DETAILS TO AVOID

THERE are a number of details regarding theatre organ playing which are best treated by considering them from a negative viewpoint.

1. In playing what are commonly spoken of as "vamp" accompaniments (usually repeated groups of chords commencing on an off-accent beat or part of the beat) be especially careful that your touch does not become too light and undecisive. One of the most common faults of "movie" organists is flabby and devitalized touch in chord work; some even fail to fully depress the keys! Only a slovenly result can be produced by such means.
2. Avoid chord work which may call to mind hymns or anthems (four-part "close harmony," especially when in slow moving time) or anything reminiscent of church organ playing. If you are to play in the theatre, cultivate the theatrical viewpoint.
3. Be very sparing of "full organ" effects. The *Grand Chœur* style of organ composition has no place in the theatre except when that thing which is neither flesh, fish nor fowl—the "Organ Solo"—makes its appearance upon the program; even then it all too often becomes merely a noisy and tiresome way of resting the eyes (while wearying the ears!). *Full organ* should be reached only once in an entire picture, and that once at the moment of greatest climax.
4. Don't be afraid of using occasional recitatives, or brief melodies, *unaccompanied*; these are very restful when interspersed judiciously. Modulations may often be *suggested* in this manner, without resorting to the conventional chord work.
5. Don't be afraid of silence; it is "the greatest effect in music." Above all, don't hold chords (in the style of the bungler) while hunting around for registration changes! Change stops always in silence; this rule holds good in every place.
6. Shading must be constantly present, but do not overdo it. The violent shadings are for violent effects, not for usual purposes. Be sparing in the extent to which you move the pedals.
7. Use *solo stops as solo stops*; don't mix them indiscriminately. Use their different colors to illustrate the different characters and situations to be played to. Especially avoid mixing the reeds—*Oboe, Clarinet, Tuba, Saxophone, French Horn*, etc.; their individualities are one of your strongest weapons.
8. Finally, seek for variety of power and intensity, as well as tone color; neither all loud nor all soft, but a continuous variety of dynamics—all governed by the action to which you are playing. Study the technic of the best players; above all strive to master the theatrical insight into cause and effect; only by so doing will you become a satisfactory interpreter of the drama.

FIRST STEPS

Facility must be secured in changing the effect of music written in "block chord" style to solo and accompaniment effect. Start with the simplest chord work passages, such as the following:

132

This should be first studied so as to give the effect of a violin solo with soft accompaniment, in this manner:

133

Sw. Strings 8' & 4', Bassoon 16' trem.

Gt. soft 8'

Then the position of the melody should be inverted, the effect being that of a cello solo:

134

Flutes 8' & 4' *p*

Strings 8' & 4', Saxophone 8' *mf*

Comparison of the accompaniment of the third example given with that of the second will show that several slight changes in its formation have been made; obviously, these have been made because the chord work becomes more prominent and noticeable by its transference to the higher tessitura. The changes consist of breaking up of time values of the dotted half-notes, and the inversion of two "skips" in the upper voice. This demonstrates another valuable rule, viz:— Avoid the diatonic progressions, i.e.— "step-wise" or scale-like progressions, to a considerable degree; or put contrary-wise—in both melodies and in prominent portions of chord work be careful to have enough intervals wider than the second to keep the effect of motion and life emphatically present. This again is sound theatrical practice. It must never be lost sight of that life in the theatre flows by in a more rapid procession than does actual human experience, and that it therefore becomes necessary for music in the theatre to possess more definite qualities of energy and *propulsiveness* than is needed elsewhere.

A very large field for experimentation is opened up by the study of the changes necessary in adapting accompaniments to theatrical usage. The student will realize that the mere expedient of introducing staccato first in one hand and then in the Pedals will give not a little variety. As a very simple example take the second theme from Godard's *Second Mazurka* (violin and piano) Op. 54. If played as notated for the piano accompaniment the effect will be one of unrelieved legato, as follows:

135

Tranquillo

As this effect would in the majority of cases be very much out of place in the theatre, try the simple change of shortening the pedal notes considerably, as follows:

136

Tranquillo

Or the effect of propulsiveness may also be given by a modification of the chord work, with a slightly less pronounced shortening of the pedal notes, as follows:

137

Tranquillo

These examples will give the student an introduction to the subject of adapting for the theatre. It must not be supposed that the pedal part is to be invariably staccato; to play the organ with continuous staccato pedal part is wearisome under any circumstances. But there must be a degree of separation either in the pedals or in one or both hands during the largest part of the playing time. Refined taste, guided by an orchestral view-point, must be the deciding factor as to degree and place for *staccato*.

THE TREATMENT OF TREMOLO FIGURES

The *tremolo* figure, in one of its several forms, is very frequently met with in both orchestral and pianoforte music; furthermore, it can be to advantage introduced at times in adapting music to the theatrical organ.

Two forms are commonly encountered; they are:

1. The octave roll, most often introduced as a pedal-point, but also used frequently in the upper register of the violins

2. The broken chord tremolo, known in orchestral work as the fingered, or slurred tremolo. This latter is the basis of almost all the "*agitatos*" used in moving-picture playing.

The first form generally requires drastic treatment; the octave tremolo can scarcely be said to be truly pleasing in any portion of the compass of the organ. It is most unpleasant in the lower register (where the difference in promptness of speech of two pipes an octave apart becomes more noticeable), and is only moderately successful in the treble. The majority of the most successful players in the theatre change octave tremolos, especially in the lower registers, to some form of trill — generally using the upper note for the trill, and holding the lower note for the necessary support. For instance, in Act I, of the opera "*Carmen*," the pianoforte score contains the following passage introducing the chorus of Cigarette-girls (No 4):

138 G. BIZET

Allegro

The musical score for example 138 is in 6/8 time. The treble staff begins with a rest, followed by a series of broken chords (triads) marked with a *p* (piano) dynamic and an accent (^). The bass staff features a continuous octave roll, indicated by a series of slanted lines and a *pp* (pianissimo) dynamic. The passage concludes with the word "etc." in the treble staff.

The effect desired is of course one of excitement and anticipation, and it will be found that this effect of tension will be far better attained by treating the passage in some such style as this:

139 G. BIZET

Allegro

The musical score for example 139 is in 6/8 time. The treble staff features a broken chord tremolo marked with a *p* dynamic and an accent (^). The middle staff has a note marked *p* (or 8va higher, if greater intensity is desired). The bass staff contains a tremolo figure marked with a *pp* dynamic. The passage concludes with the word "etc." in the treble staff.

The second form, where the tremolo figure is in the treble, is susceptible of more variation than is the first given form, and this variation may be so managed as to convey different shades of emotional intensity. One example only will be given, also taken from that masterpiece of the theatre, "*Carmen*," this example being the final theme from the Prelude — in which is pictured the hopelessness of Don Jose's love and the menace of the expected death of Carmen. The pianoforte version condenses the score as follows:

Andante moderato

ff *express.* *tutta forza* *Ped.* *

etc. (8 measures omitted here)

p *cresc.* *Ped.* *

molto *ff* *Pausa lunga* *Ped.* *

No radical changes are necessary in adapting this to the organ; for either theatrical purposes or for use in a recital. As played upon the organ the theme is given to heavy strings with Diapason and either Clarinet or Saxophone to give weight and intensity of tone; the last note of each phrase is lengthened as will be seen upon examination. The pedals should give the pizzicato notes with decision. The right hand tremolo figure begins with the lower note held throughout the measure and the upper two notes *alternated smoothly*. At the point marked *A* the holding of the lower note ceases (giving more intensity to the tremolo) and at *B*, where the crescendo builds up overwhelmingly, the missing notes of the chord are filled-in; as more stops are added during these last four measures of tremolo the touch may become more detached—which will aid in heightening the emotional effect.

The manner of treatment would be approximately as follows:

141

Andante moderato

(8 measures omitted here)

A

B

meno p

mf cresc.

molto

ff

Pausa lunga
